

BERGENBIO ASA: NOTICE OF ANNUAL GENERAL MEETING

Bergen, Norway – 7 April 2022: BerGenBio ASA (OSE:BGBIO) will be holding its Annual General Meeting virtually on 28 April 2022 at 10:00 hours (CEST).

The notice, power of attorney and proposal from Nomination Committee are attached to this release. The notice will be sent to all registered shareholders and is available on the Company's website: <https://www.bergenbio.com/investors/general-meetings/>

All shareholders are encouraged to exercise their shareholder rights, either through advance electronically voting through VPS Investor Services, by using the enclosed proxy form to provide proxy to the Chairman Anders Tullgren (or the person he appoints), or to attend the general meeting virtually.

Advance vote or proxy for the Annual General Meeting can be registered through the company's website or VPS Investor Service within 25 April 2022 16:00 hours (CEST). Virtual participants need to be logged in to the meeting before 10:00 hours (CEST) 25 April 2022. All shareholders will receive a reference number and a pin code required for registration through the company's website. Reference number and pin code will be received either by VPS Investor Service or by post depending if the shareholder is registered as electronic user.

We encourage all shareholders to register as electronic user in VPS.

– END –

About BerGenBio ASA

BerGenBio is a clinical-stage biopharmaceutical company focused on developing transformative drugs targeting AXL as a potential cornerstone of therapy for aggressive diseases, including immune-evasive, therapy resistant cancers. The company's proprietary lead candidate, bemcentinib, is a potentially first-in-class selective AXL inhibitor in a broad phase II clinical development programme focused on combination and single agent therapy in lung cancer, leukaemia and COVID-19. A first-in-class functional blocking anti-AXL antibody, tilvestamab, is undergoing phase I clinical testing. In parallel, BerGenBio is developing a companion diagnostic test to identify patient populations most likely to benefit from bemcentinib: this is expected to facilitate more efficient registration trials supporting a precision medicine-based commercialisation strategy.

BerGenBio is based in Bergen, Norway with a subsidiary in Oxford, UK. The company is listed on the Oslo Stock Exchange (ticker: BGBIO). For more information, visit www.bergenbio.com

Forward looking statements

This announcement may contain forward-looking statements, which as such are not historical facts, but are based upon various assumptions, many of which are based, in turn, upon further assumptions. These assumptions are inherently subject to significant known and unknown risks, uncertainties and other important factors. Such risks, uncertainties, contingencies and other important factors could cause actual events to differ materially from the expectations expressed or implied in this announcement by such forward-looking statements.

This information is subject to the disclosure requirements pursuant to section 5-12 of the Norwegian Securities Trading Act.
