

## **Kansas City, MO selects thermal hydrolysis for its Blue River facility**

Asker, Norway, 12 February, 2021 - Stock Exchange Notice For Immediate Release

Cambi Inc. has been selected to supply a thermal hydrolysis system at Kansas City Water's (KCMO) Blue River Biosolids Facility. This will be the first facility in Missouri to utilise Cambi's thermal hydrolysis process.

Cambi does not yet have a contract for this project, but negotiations with the awarded contractor Goodwin Brothers Construction Co. are at an advanced stage.

Details about this project will follow in a press release upon contract signature.
