## Establishment of Technology and Solutions business segments

Asker, Norway, 21 September 2023

As a part of the new strategic direction, as announced in the notice issued on 14 September 2023, the company has made changes to its reporting segments. The new reporting structure will result in better alignment between company strategy, operations, and financials.

The company's financial reporting as of the third-quarter interim report, to be published on 9 November 2023, will be based on the following reportable segments:

- **Technology:** Sales activities, R&D, manufacturing and the delivery of world-class thermal hydrolysis process (THP) technology for sludge treatment to customers around the globe.
- **Solutions:** Value-adding services after the delivery of THP technology, such as maintenance, repairs, upgrades, modifications etc., in addition to recycling of biosolids into organic resources for agriculture.

More information about the change in business segments will be made during the Capital Markets Update on 27 September 2023 at 10:00 AM CET.

Historical financial information of the new business segments for comparison purposes is attached, and is also available at <https://www.cambi.com/investors/the-share/>

### About Cambi:

Cambi is a global biogas technology and solutions supplier for wastewater treatment plants and anaerobic digestion facilities. Since 1992, Cambi has retained market leadership through continuous innovation and a robust portfolio of proven and patented technologies. With strong project delivery and customer support capabilities, the company has delivered many well-performing installations in 27 countries on six continents.

Cambi's thermal hydrolysis process increases renewable energy output, reduces operational costs, and minimises greenhouse gas emissions. It is suitable for all biosolids outlets, including land application and thermal processes such as drying, pyrolysis, and incineration. Thermal hydrolysis is compatible with all sludge and waste treatment regulations and easy to integrate at new and existing anaerobic digestion sites.

Cambi is listed on Euronext Growth Oslo, a multilateral trading facility in Euronext, Europe's largest stock exchange platform. Find out more at [cambi.com](http://cambi.com).
