

DOF Subsea secures integrated FSV contract in Africa

DOF Subsea has entered into a 2-month long contract with an international energy client in Africa. The project will utilise Skandi Seven and commence operations in direct continuation with the ongoing commitment for the vessel.

DOF Subsea will during this project deliver integrated FSV services, project management and engineering on multiple project packages, mainly within deep-water construction and maintenance activities.

With a multi-national workforce of about 3,500 personnel, DOF ASA is an international group of companies which owns and operates a fleet of modern offshore/subsea vessels, and engineering capacity to service both the offshore and subsea market. With over 35 years in the offshore business, the group has a strong position in terms of experience, innovation, product range, technology and capacity.

DOF's core businesses are vessel ownership, vessel management, project management, engineering, vessel operations, survey, remote intervention and diving operations primarily for the oil and gas sector. From PSV charter to Subsea engineering, DOF offers a full spectrum of top quality offshore services to facilitate an ever-growing and demanding industry.

The company's main operation centers and business units are located in Norway, the UK, the USA, Singapore, Brazil, Argentina, Canada, Angola, and Australia.

DOF ASA is listed on the Oslo Exchange since 1997.
