

## **DOF Subsea Atlantic contracts update**

DOF Subsea is pleased to announce multiple new contracts within Renewables and Oil & Gas in the North Sea.

The projects, to be delivered in 2022, total more than 185 vessel days excluding any optional work.

Skandi Acergy, Skandi Constructor, Skandi Hera and selected third-party vessels will be utilised in the offshore execution phases.

All awards include project management, engineering, procurement and logistics – to be delivered by our integrated subsea expert teams across Bergen and Aberdeen.

Several of the awards are EPRD (Engineering, Preparation, Removal and Disposal) decommissioning contracts, and DOF Subsea is planning to deploy multiple vessels in-field during the execution.

DOF Subsea has also received several new frame agreements. Within one frame agreement, DOF Subsea will deliver continuous survey services for a Renewables project in Taiwan throughout 2022. DOF Subsea has also received a frame agreement with a major North Sea Operator, unlocking access to DOF Subsea's integrated services within IMR (Inspection, Maintenance and Repair), construction, SURF and decommissioning.
