Nel ASA: Receives purchase order for two additional fueling stations in Norway

(Oslo, 3 July 2018) Nel Hydrogen Solutions, a division of Nel ASA (OSE: NEL), has been awarded a contract by Uno-X Hydrogen AS (Uno-X Hydrogen) to build the next two H2Station® hydrogen fueling stations in Norway.

“Nel is proud to announce that we have been awarded a contract from Uno-X Hydrogen to build two additional hydrogen fueling stations in Norway. We see that the stations already established in Akershus and Bergen are very well utilized, and with the expected influx of hydrogen vehicles during 2018, the new stations will help increase the value of the total network, which again should trigger increased sales of vehicles,” says Jon André Løkke, CEO of Nel.

The purchase order has a value of EUR 2 million and the fueling stations will be delivered during the first and second quarter of 2019.

Uno-X Hydrogen is a joint venture between Uno-X, Praxair and Nel, aiming at building a network of hydrogen fueling stations covering the major cities in Norway by 2020.

ENDS
