Nel ASA: Launches updated website showcasing fully integrated portfolio

(Oslo, 20 September 2018) Nel ASA (“Nel”) invites visitors to explore its enhanced website, showcasing the fully updated product portfolio with key performance attributes.

“We are pleased to announce the launch of our updated website with information on the full range of products, now also including our range of PEM electrolyzers. As our capabilities and portfolio expands, we want to provide customers with a detailed overview of our capabilities within hydrogen production, -fueling and -solutions,” says Bjørn Simonsen, Vice President Market Development & Public Relations at Nel.

The site includes extensive information to help customers understand Nel’s complete range of hydrogen products and solutions, along with technical specifications and an overview of markets where Nel provides hydrogen solutions. Updates to the site include integration of the full product and solutions portfolio, including PEM electrolyzers.

Nel invites visitors to stay informed with the latest news of the company, product updates and investor information.

About Nel ASA | www.nelhydrogen.com

Nel is a global, dedicated hydrogen company, delivering optimal solutions to produce, store and distribute hydrogen from renewable energy. We serve industries, energy and gas companies with leading hydrogen technology. Since its foundation in 1927, Nel has a proud history of development and continual improvement of hydrogen plants. Our hydrogen solutions cover the entire value chain from hydrogen production technologies to manufacturing of hydrogen fueling stations, providing all fuel cell electric vehicles with the same fast fueling and long range as conventional vehicles today.
