

Nordic Mining acquires landowner properties to commence construction at Engebø

Nordic Mining has, through its wholly owned subsidiary Nordic Rutile AS, exercised the agreements with landowners to acquire the main properties at Engebø, which includes immediate access to the process plant area. This completes the necessary formalities to start the planned early construction works at Engebø. The early works will be started as soon as possible. In preparation for start of construction Nordic Mining has undertaken initial environmental monitoring, which will continue throughout construction and will form the basis for a new environmental baseline for start of operations.

For questions, please contact Operations Director - Engebø Rutile and Garnet, Kenneth Nakken Angedal, telephone +47 92640645.

Nordic Mining ASA

Nordic Mining ASA (www.nordicmining.com)

Nordic Mining ASA ("Nordic Mining" or the "Company") is a resource company with focus on high-end industrial minerals and metals. The Company's project portfolio is of high international standard and holds significant economic potential. The Company's assets are in the Nordic region.

Nordic Mining is undertaking a large-scale project development at Engebø on the west coast of Norway where the Company has rights and permits to a substantial eclogite deposit with rutile and garnet. Nordic Mining also holds 12.0% of the shares in Keliber Oy, which is developing a lithium project in Finland to become the first European producer of battery grade lithium hydroxide.

In addition, Nordic Mining holds interests in other initiatives at various stages of development. This includes patented rights for a new technology for production of alumina and exploration of seabed minerals.

Nordic Mining is listed on Euronext Expand Oslo with ticker symbol "NOM".
