

Nordic Unmanned ASA appoints acting CFO

16.6.2023 19:31:08 CEST | Nordic Unmanned | Additional regulated information required to be disclosed under the laws of a member state

Lars Andreas Landsnes (b. 1967) has been appointed acting CFO of Nordic Unmanned ASA effective today. Landsnes holds a masters of science degree in finance and has more than 30 years of experience from various finance and operational leadership positions in manned and unmanned aviation. The last four years he has held the position as COO of Nordic Unmanned. Previously, Landsnes held international leadership positions with aviation companies such as Widerøe ASA, Vector Aerospace and CHC Helicopters/Heli-One.

Knut Stålen has filled the role as interim CFO of Nordic Unmanned ASA since April this year, and he will now move on to a role as financial advisor in the company.

“Nordic Unmanned is going through a transition towards profitability and sustainable growth. Lars Andreas Landsnes has extensive knowledge about the market and the company, and I am very pleased that Lars has accepted the role as CFO during this transition.” says Arne Roland, CEO of Nordic Unmanned ASA.

About Nordic Unmanned

Nordic Unmanned is a leading provider of high-end drone and data capture products and flight services. Its technology division is an Original Equipment Manufacturer (OEM) for the drone and sensor product lines AirRobot and DroneMatrix, serving primarily defense, security, and productivity improvement markets. The flight services business holds industry-leading expertise as an operator of rotary and fixed-wing drone systems, providing pollution monitoring, fishery control, surveillance, and logistics services. Clients include coast guards, intelligence services, and government agencies.

Nordic Unmanned has one of the world's most comprehensive permits to fly beyond visual line of sight (BVLOS), through its EASA-approved Light UAS operator Certificate (LUC). The company is ISO 9001-2015 and ISO 14001:2015 certified for the operation, maintenance, and sales of unmanned systems and sensor technology.

Founded in Norway in 2014, Nordic Unmanned has offices in Sandnes (NO), Molde (NO), Odense (DK), Cranfield (UK), Hasselt (BE), Arnsberg (GER), and Baltimore (US).
