## Norse Atlantic with All-Time-High Load Factor of 99%

In June, Norse Atlantic Airways recorded an all-time-high load factor of 99%, breaking the previous record from May 2025 by 3%-points and representing a 14 %-points increase from 85% in the same month the previous year. The load factor of scheduled network was also 99%, compared to 85% in June 2024. The Company operated 648 flights and transported 214,419 passengers across its network and ACMI/charter operations, a 20% increase in passenger numbers. 70% of the flights departed within 15 minutes of their scheduled departure time, down 10%-points year-over-year due to continued Air Traffic Control (ATC) delays and airport congestions. Norse operated 59 ACMI/charter flights in June 2025, compared to none in June 2024.

TRAFFIC FIGURES

Passengers — Load factor (%)

ASK (Available Seat Kilometers): Number of available passenger seats multiplied by flight distance. | **Completion**: Percentage of scheduled flights that operated. | **LF (Load Factor):** A measure of how efficiently seats are filled, found by dividing RPK by ASK.| **Punctuality:** Aircraft departed within 15 minutes of the scheduled departure time. Indicates on-time performance.| **RPK (Revenue Passenger Kilometers):** Number of sold seats multiplied by flight distance.
