

Observe Medical has received first significant UnoMeter™ Safeti™ Plus order from Italy

Oslo, 6 March, 2025 – Observe Medical ("the Company" or "Observe Medical") has received a significant repeat order from the very important Italian market that in 2021 represented almost 20 mNOK of the total UnoMeter™ annual sales.

After testing UnoMeter™ Safeti™ Plus at key customers in the Italian market and subsequently received very positive feedback on the performance and quality of the product, the first significant order has been received from the Italian distributor.

In parallel with the new UnoMeter™ Safeti™ Plus sales there are already significant sales of UnoMeter™ 500 in the Italian market.

Jørgen Mann, CEO of Observe Medical, commented, "Italy is a very important market for Observe Medical due to its size and the historic strong position on the UnoMeter™ portfolio. It is great to experience positive customer feedback on the quality of UnoMeter™ Safeti™ Plus from an additional market and see that the customer acceptance means that the first trial orders are now converting into orders with significant volumes. We have many more significant markets where trials are ongoing and expect to be able to continue to transfer such trials to a solid order intake going forward".
