The Prosafe transformation 2018

Positioning for the next phase

Continuation of fleet modernisation

(2005)

(2015+)

(2017+)

Modern/Core fleet: the most modern and versatile accommodation fleet globally

TSV

Legacy fleet

Legacy fleet

Scrapped since 2016

Yard financing raise

- New financing of USD 431.2m for the takeout of the 3 new Cosco units
- Low minimum debt service scalable with rig earnings
- Interest free first two years after delivery, thereafter interest is based on dayrates achieved
- Flexible delivery up to 5 years and ultimately option to not take delivery of rigs

Debt Facilities Enhancements

- Liquidity: Amortization relief of USD 156m (in addition to amortization relief agreed in 2016)
- Option for Prosafe to extend final maturity of existing USD 1.3 billion by 1 year to February 2023
- Covenant ease for both existing loan agreements
- Consent to COSCO agreement and use of Prosafe's existing cash and cash flow in connection with delivery of the COSCO units
- Ability to scrap 3 legacy units without loan repayment

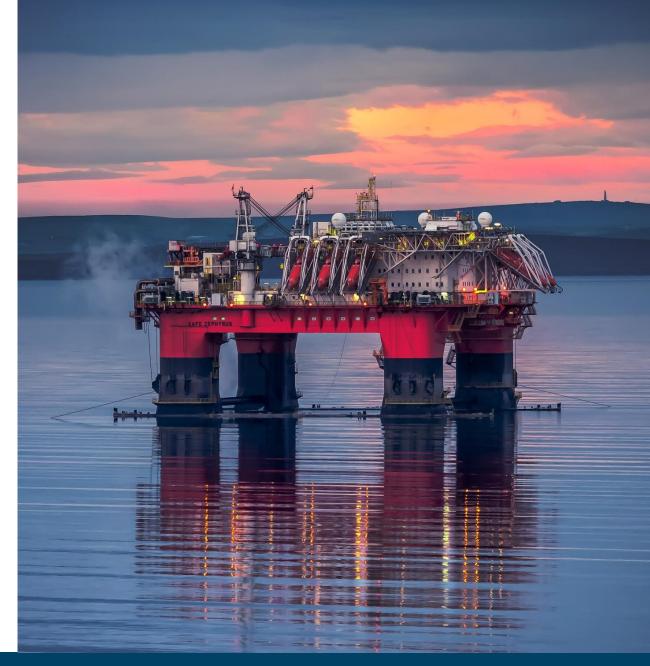

The Prosafe transformation 2018

Results of the set of agreements

1	Modernize the fleet		d three versatile units with global reach % of the fleet will be less than 4 years old
2	Secure very attractive financing for Cosco newbuilds	o Tal	nited debt service and interest expenses until market recovery ke-out flexibility up to 5 years and options to take out up to three odern units
3	Enhance runway		5D 156m amortization relief and covenant ease tion to extend final maturity of USD 1.3 billion facility by one year to 23
4	Reduce cash leakage	o Co	st savings from option to retire legacy units
5	Improve attractiveness for consolidation and partnership		newed fleet and long-term financing makes Prosafe an attractive mpany for partners and stakeholders

- Summary

The Cosco agreement – in short

Deal highlights

- Option to take delivery of three vessels
 - Safe Eurus before 31 Dec 2019
 - First of Safe Vega/Nova delivery within 3+1 years
 - Second of Safe Vega/Nova delivery within 5 years

Yard financing

Delivery

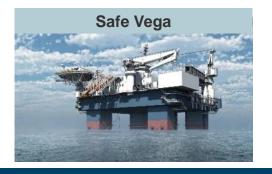

terms

- Payment on delivery: Eurus USD 50m, Nova/Vega USD 25m each (total of USD 100m)
- Prosafe pays no layup cost or financing cost until delivery
- Financing of USD 431.2m on delivery of the three vessels
- Interest cost and debt repayment dependent on dayrates and earnings achieved. Interest free for the first 2-5 years from delivery of each vessel
- Layup (option period) + financing duration of up to 10 years

Rigs

Attractive purchase price and yard financing

Combination of cash discount, attractive yard financing, and optionality

Attractive pricing through a package deal

- Cash discount of USD 55m
- 2. Attractive yard financing with below-market terms (debt repayment and interest costs)
- Take-out flexibility and options to take out up to three modern units

Key transaction terms

Item	Description			
Delivery Window and	 Safe Eurus – Delivery before 31st December 2019 Nova/Vega; Delivery of one vessel within 3 years from agreement with COSCO, plus 1 year option (subject to certain conditions) For the other vessel, delivery within 5 years of agreement 			
Down Payment	 Payment at delivery: USD 50m for Safe Eurus / USD 25m each for Safe Nova/Vega, total USD 100m Mobilisation and stock-up costs: USD 10m-15m (pending contract duration and location) to be repaid with priority from the EBITDA split 			
Yard financing	1. USD 98.7m for Eurus, USD 164.7m for Nova and USD 167.8m for Vega, total USD 431.2m			
PCG	1. Parent Company Guarantee limited to USD 60m per vessel provided the vessel is delivered (i.e. maximum of USD 180m)			
Financing Duration	 Yard financing period plus lay-up at yard shall in no circumstance exceed 10 years for each of the 3 vessels Mandatory refinancing of the yard financing once outstanding amount is down to USD 50m for Safe Eurus, and about USD 83/\$84m for Safe Nova and Safe Vega 			
Distributions to Prosafe and COSCO	 Guaranteed Minimum Payment (see below) to be paid to COSCO on a quarterly basis Interest and remaining annual debt repayment on yard financing (promissory notes), plus Prosafe share of EBITDA to be paid on or before 31st March of the following calendar year Operational cash flow priority to be repaid in the following order; Guaranteed minimum annual repayment Repayment of mobilisation and stock-up costs financed by Prosafe, up to USD 20 million 50% EBITDA split to COSCO (adjusted for minimum payment, item 1 above) 			
EBITDA* Split	 Taxes triggered by operation of the vessel subtracted from EBITDA before split 50% to COSCO / 50% to Prosafe (post repayment of mobilisation and stock-up costs) COSCO EBITDA share to be applied, in full, towards amortization of promissory note Interest to be paid out of Prosafe share of EBITDA 	* EBITDA to be split is calculated after deduction of all maintenance and repair related costs (both capitalized and expensed) and after deduction of		
Minimum Payment to COSCO	 1. Per vessel, year after delivery, amortization and interest USD 2 million per year – First 3 years USD 6 million per year – Years 4-6 USD 7 million per year – Years 7-maturity 	any local taxes triggered by the operation of a vessel		
Interest	1. No interest expenses first two years after delivery, thereafter linked to dayrates achieved (see next slide)			

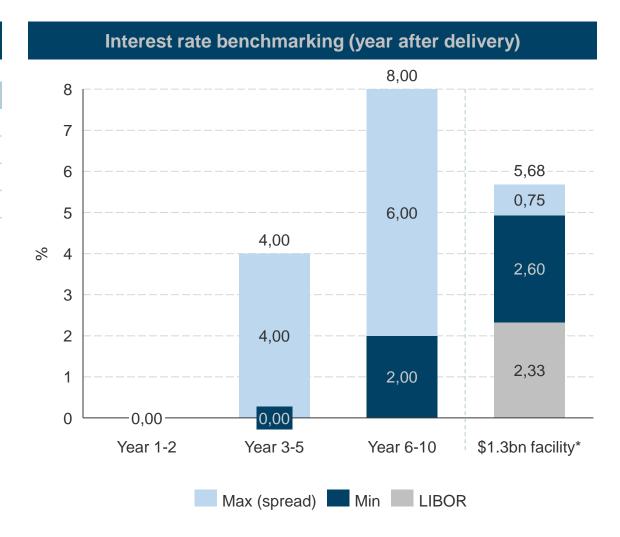

Attractive interest rate – linked to dayrates achieved

Interest rate mechanism

Average dayrate	Year 1-2	Year 3-5	Year 6 to maturity
< USD 99k	-	-	2 %
USD 100k - 124k	-	2 %-3%	3 %-5%
USD 125k - 149k	-	3 %-4%	5 %-8%
> USD150k	-	4 %	8 %

- Interest linked to average dayrates achieved
 - Annual average dayrate shall be calculated as the average of i) on a 365 days basis (i.e contract dayrate times contract days divided by 365 days). and ii) average contractual dayrates in the year.
 - Rigs contracted on the NCS shall enter the average dayrate calculation with a discount of USD 20,000 per day.
- Step up in year 3 and 6 after delivery of each vessel (i.e. not after signing)

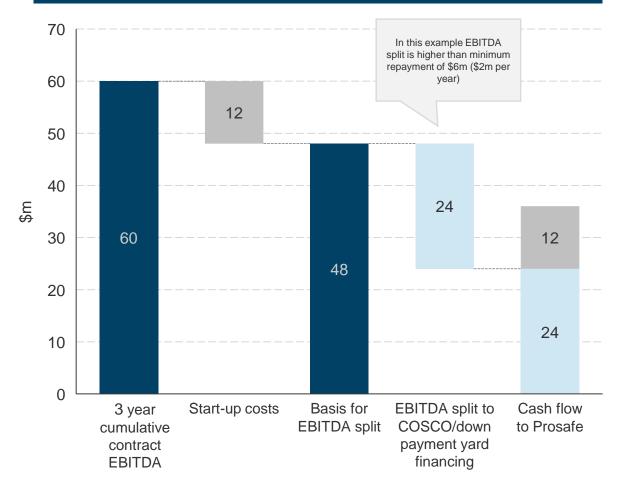

^{*}Maximum interest margin under the new loan agreement (does not reflect impact on margin of exercising extension option or delivery of Nova/Vega)

Illustrative example of key commercial terms in the COSCO deal

Illustration of EBITDA split for a 3 year contract

Key assumptions and explanations

- 3 year contract with annual EBITDA USD 20 million yielding cumulative EBITDA of USD 60 million over the contract period
- Stock-up costs USD 12 million
- Basis for EBITDA split; contract EBITDA less mobilisation and stock-up costs, USD 48 million
- EBITDA split to COSCO;
 - o 50% of USD 48m, USD 24m
 - o In this example EBITDA split is > minimum annual repayment
- Share of EBITDA kept by Prosafe;
 - Contract EBITDA less EBITDA split to COSCO, USD 36 million
- Repayment of yard financing;
 - EBITDA split to COSCO excluding interest, USD 24 million
 - No interest costs in this example

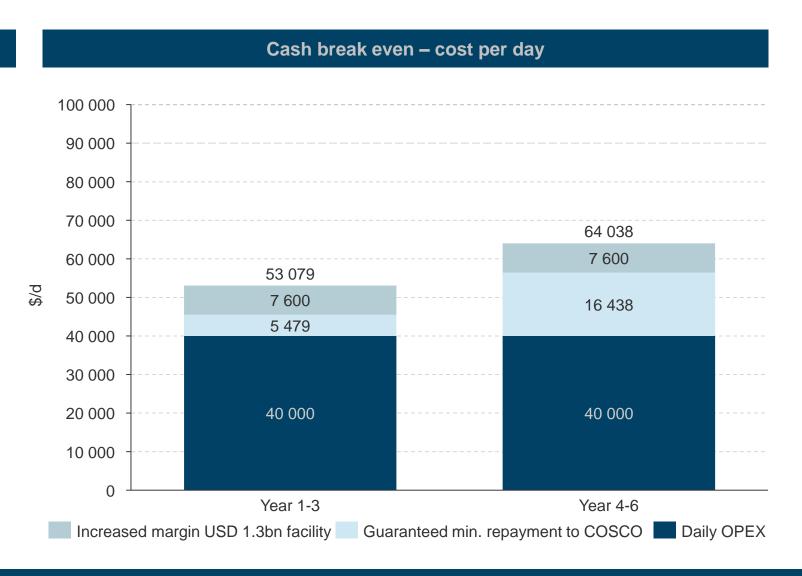

Note: Illustration based on \$143 million in yard financing (i.e. average of Safe Eurus, Safe Vega and Safe Vega)

COSCO units have a very competitive cash break-even

Comment

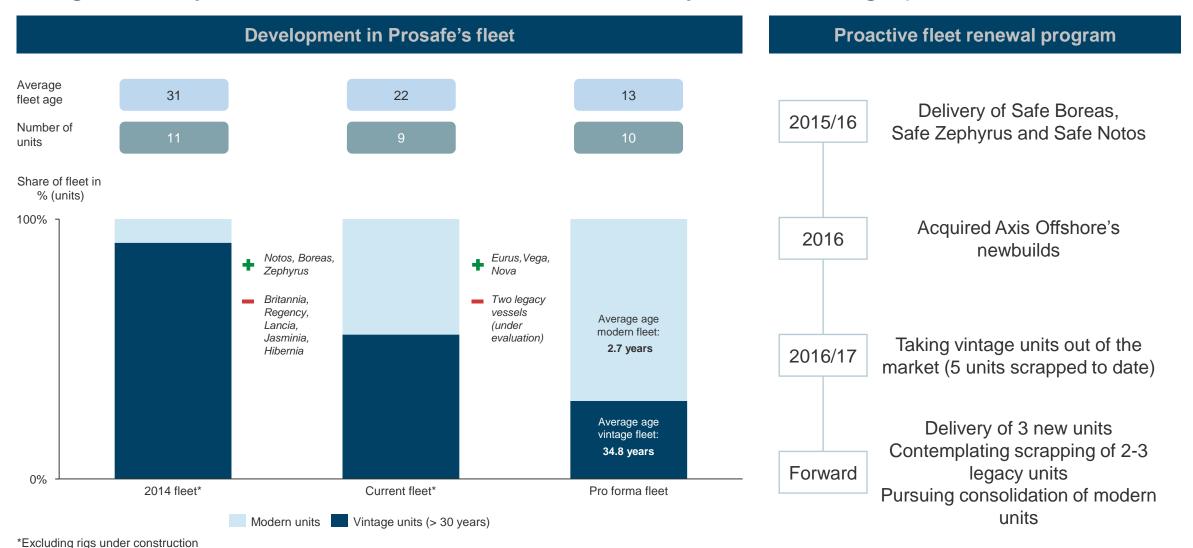

- Illustration shows minimum cash cost elements with COSCO financing package (assuming USD 40k/day OPEX)
- Significantly lower cash break even rates than with a conventional debt financing structure
- The delivery of Safe Vega and Safe Nova would increase the margin with 22.5 bps each (45 bps in total) of the USD 1.3 billion facility and/or issuing of warrants (see lender chapter)
- Assuming no interest apply under the yard financing

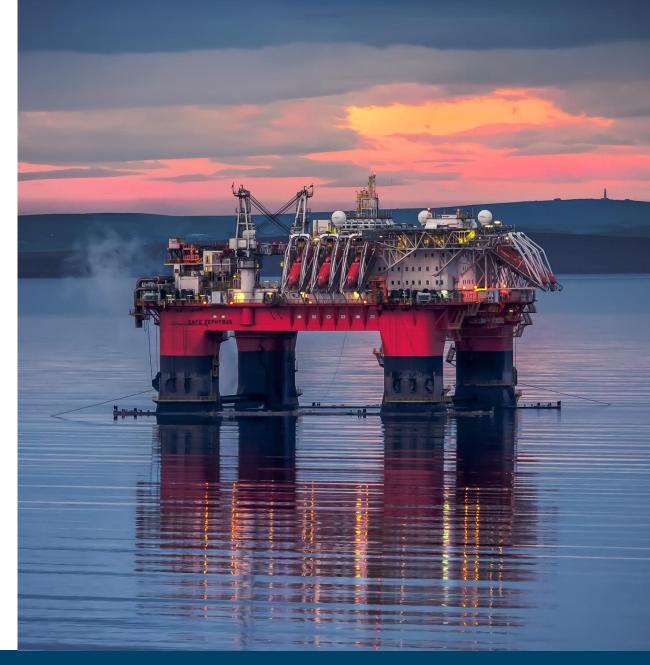

Reshaping Prosafe fleet

A significantly renewed fleet enhances versatility and earnings potential

- The Prosafe transformation 2018
- The COSCO agreement
- Debt facilities enhancements
- Market update
- Summary

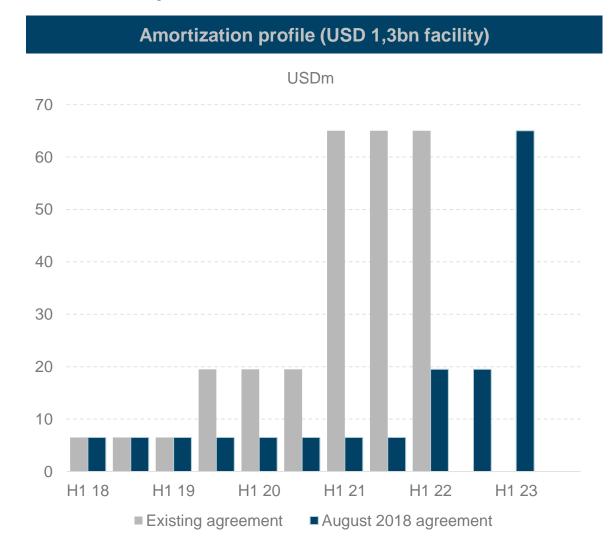

Key debt amendments

Significantly improved financial runway and flexibility

Key amendments

- Extended runway in terms of continued reduced amortization and one (1) year maturity extension option to its main USD
 1.3bn credit facility. Additional amortization relief totaling USD
 156 million
 - The USD 144 million facility (Notos) will be serviced as per current amortization and maturity profile
- Covenant ease for both the USD 1.3bn and USD 144 million facilities
- Consent to consummate the Agreement with COSCO including the use of cash for delivery (up to USD 160m)
- Flexibility to scrap up to three legacy, collateralised vessels without loan repayment corresponding to their relative collateral value
- At this stage in the process Prosafe has support from approx.
 94 per cent of its lenders to its requests

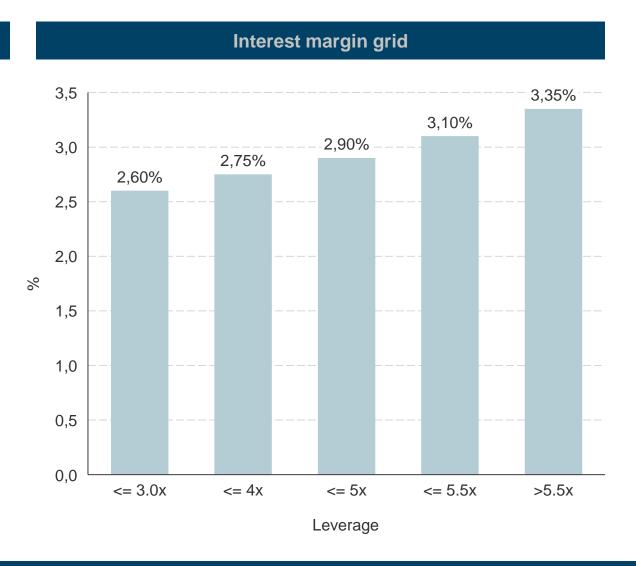

Amendments to interest expenses

For USD 1.3bn facility only

Interest Margin Terms

- Increased margin of 0.6% p.a. from date of amendments becoming effective. The new credit margin will dependent on leverage ratio displayed on the chart on right hand side
- Optional 1 year extension of USD 1.3bn facility at margin increase of an additional 0.6% p.a. (i.e. total 1.2% increase from current margin from 6 Feb 2022 onwards only)
- Additional margin of 0.225% p.a. from delivery of each of Nova and Vega. Only payable to lenders electing for margin uplift option (*refer to following page*).

Terms relating to delivery of Safe Eurus, Nova and Vega

Delivery conditions

- First contract to cover
 - Mobilisation and stock up cost (expected USD 10-15m)
 - Minimum payment to COSCO (USD 2m p.a.)
- Additional requirements for delivery of Nova and/or Vega
 - Credit line or other source of capital of USD 7.5m per vessel to be available to cover any layup cost and minimum payment to COSCO if vessel becomes idle after first contract
 - Lender election for either (a) margin increase of 22.5 bps for the USD 1.3bn facility per vessel, or (b) issuance of up to 6.52m warrants per vessel (capped at 9.78m warrants for the two vessels combined)
 - Strike price for warrant = average of (a) 10 business day VWAP ahead of announcement of deal and (b) 10 business day VWAP after announcement of deal
 - Warrant exercise period of 3 years from delivery of Nova/Vega
 - If Nova and Vega are not delivered, or the USD 1.3bn facility is refinanced ahead of delivery of Nova and Vega, there will be no margin increase or exercise of warrants

- Summary

Current fleet status

Contracting update

Fixtures Summer 2018

- Safe Scandinavia 7 months firm commencing September 2018 plus 8 months of options with Aker BP at Ula, NCS
- Safe Concordia 200 days firm plus 15 days of options with Modec supporting FPSO maintenance in Brazil
- Safe Boreas 1 month extension with Equinor at Mariner, UKCS

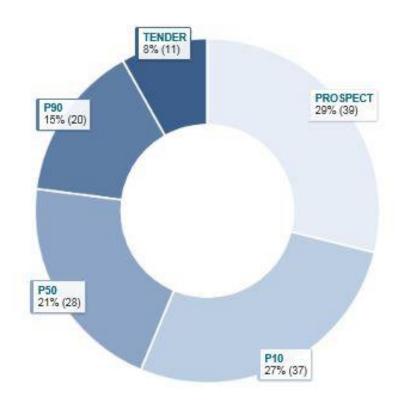

Contract pipeline

Global Opportunities

- 11 tenders ongoing for 2018 through 2020 double the amount since Q1 2018
- 5 tenders with commencement dates in 2019
- 17 North Sea prospects with high probability of going to tender next 3 years
- Longer term prospects out with North sea due to materialise within Q4 2018/ Q1 2019
- Prospect visibility is considered short as operators address deferred maintenance, reacting to the higher oil price environment

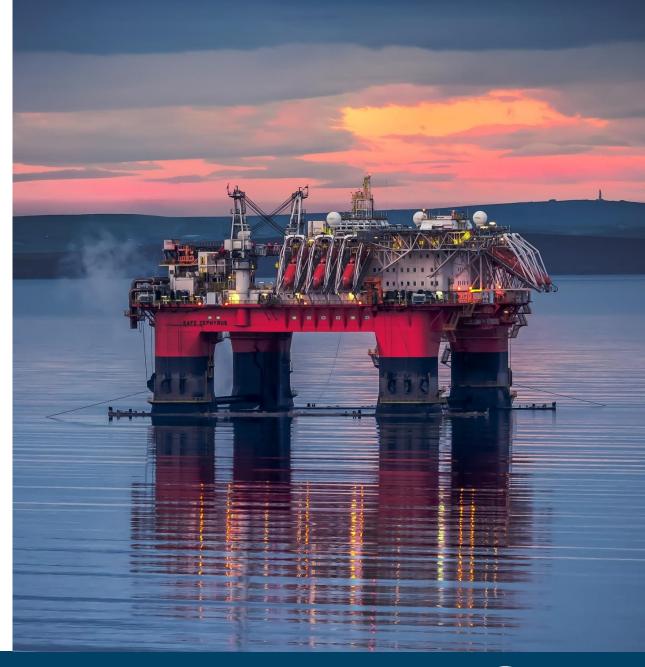

Prospect Analysis

P90, P50 and P10 are prospects probability of moving to a tender Source: Prosafe
