

Rana Gruber ASA – Production update Q3-22

Rana Gruber has today published the production update for the third quarter of 2022. The concentrate production of the third quarter was 469 000 metric tons, up from 407 000 metric tons last year. This is the strongest production quarter in Rana Grubers history and is a result of continuous improvement in the entire value chain.

Please see attachments for selected production and sales metrics for the quarter.

About Rana Gruber

Rana Gruber is a Norwegian iron ore producer established in 1964, with operations based on more than 200 years of mining experience. The company's products are based on natural mineral resources, which are processed and exported to customers worldwide. Key customers include steel producers and participants in the chemical industry. The company has about 300 employees and a production capacity of 1.8 million metric tons of iron ore concentrates.
