

## Webstep signs framework agreement with the Norwegian Courts Administration

**The agreement has a duration of four years and represents an estimated sales value of approximately NOK 100 million. The purpose of the framework agreement is to secure competence and capacity to realise the strategy of the Norwegian Courts Administration to digitise its operations.**

The agreement is part of a digital transformation of the case management systems in the Norwegian Courts Administration. In this process, Webstep will be responsible for the Java based applications and work as an integral part of the Norwegian Courts Administration's IT organisation.

"We are very pleased to be able to contribute to the digitalisation of the Norwegian Courts Administration. The contract shows that Webstep has both the capacity and expertise to deliver comprehensive project deliveries in line with our growth strategy", says regional director of Webstep ASA, Sørvik Asmervik.

Webstep will lead the work from its department in Trondheim, Norway, which is where the Norwegian Courts Administration is located.

The agreement will take effect as from 16 December 2020.

Oslo, 23 December 2020
