

## **Trading Update - first quarter 2014**

Rotterdam, 24 April 2014

### **Business during the first quarter of 2014**

Amsterdam Commodities N.V. reports that sales in the first quarter of 2014 were at similar levels as in the same quarter of 2013 and slightly above the fourth quarter of 2013. The Group achieved total net results which were above the net results in the first quarter of 2013.

The directions of various markets have its inherent uncertainties. We provide our suppliers and customers with reliable contracts in sourcing and supply of agricultural food products in the international commodity markets on a worldwide basis.

Given the nature of our activities and the markets we are active in, we cannot forecast the further development of the markets or anticipate the results of the Group for the full year 2014. We are confident that our trading teams will continue to generate profitable results for the shareholders.

The Management Board and Supervisory Board
