Ctac celebrates its 15th anniversary

In 2007, SAP services provider Ctac celebrates its 15th anniversary. When the company was founded in 1992, Ctac was responding to the need for specialised SAP application expertise. Ctac is currently a leading presence in the SAP market and since 1998 has been listed on Euronext Amsterdam. With 257 employees, a whole range of specialisms and a unique business model in the Netherlands and Belgium, Ctac is now more successful than ever.

Ctac proved its worth very quickly. "The combination of SAP application know-how and a knowledge of business processes was virtually unknown until the foundation of Ctac", says Hugo Coymans, the founder of Ctac. "The integration of the technical and functional aspects with the actual business processes has always played a central role in our activities. This is how Ctac has grown into *the* SAP Partner which delivers information and process solutions with lasting added value for our clients. That has always been and continues to be the core of Ctac's success."

In 2004, Ctac decided to introduce a unique business model: the Ctac Powerhouse. This involved a number of expansions. Ctac currently covers a wide range of market and product specialisms, always with a 100% focus on SAP services provision. In addition, Ctac also offers related services such as training courses. Wil Huijben, CEO: "The Ctac Powerhouse stands for synergy through cooperation. Fruitful cooperation between the business units, resulting in more extensive competencies and surprising innovations. But also successful partnerships with clients, characterised by durability and loyalty."

The success of the Ctac Powerhouse is a fact: SAP has awarded Ctac Gold Partner status; for the fifth time in a row Ctac has won the Award for most successful SAP Reseller; Ctac has opened a second data center and is market leader in the field of SAP hosting and management in the Benelux. In 2006, Ctac realised a doubling of its shareholder value. Wil Huijben: "We are proud of the performances we have booked, the trust of our clients and the efforts of our employees. Obviously, we will in the future continue to strive to be of service to our clients with total solutions."
