mYuice develops sector solution for four technical wholesalers

mYuice, part of the Ctac Powerhouse, has been chosen by four leading technical wholesale companies (Breur Ceintuurbaan, Wijngo Holland, Technivo, Keller's ijzerhandel) as implementation partner for a sector-related SAP Business All-in-One solution. The solution enables mYuice to offer the technical wholesale trade a 100% tailored solution, which is ready for the future, at affordable conditions.

The four companies are all members of the UN-club and all work with the same customized package which will be replaced by the mYuice solution. It has been agreed that mYuice, in cooperation with SAP, will have developed a SAP Business All-in-One solution for the technical wholesale trade by early 2008. This solution will be implemented at UN-club companies. Subsequently, a number of specific solutions will be integrated in the solution. These could include a webshop, links to the technical service or the transmission of radio frequencies.

"The foundation for this cooperation lies in our years of experience working with the wholesale trade", said Peter Geelen, managing director mYuice. "And obviously a flexible solution such as SAP Business All-in-One, which enables us to offer sector-specific solutions based on standard software. The cooperation with the UN club will allow mYuice to further refine the SAP Business All-in-One concept, which will also benefit future clients. "
