Ctac Dynamics gains Microsoft-Certified Gold Partner status within two months

ERP specialist Ctac in Den Bosch has gained the Microsoft-Certified Gold Partner status within just two months. This is the first time that any company in the world has acquired this certification so quickly.

Ctac initiated the certification process due to the expansion of its services portfolio. Ctac now also focuses on the sale and implementation of Microsoft's business software and in particular on Microsoft Dynamics NAV for Enterprise Resource Planning and Microsoft Dynamics CRM customer relations management. Ctac combines the Microsoft Dynamics CRM solution with its SAP solutions for the small and medium-sized enterprise sector. With Microsoft Dynamics NAV, Ctac focuses on specific clients or sectors, such as the hotel sector.

Microsoft-Certified Gold Partners are partners of the very highest level. They have the right expertise, skills and commitment to offer solutions that fit the business needs of their clients. To use the Gold Certified Partner title and official logo, they have to employ Microsoft-Certified Professionals and have at least one Microsoft competency.

Bart Hogendoorn, Ctac CEO: "We are very proud to have acquired the certification in just two months time. It underlines our commitment to offering our clients the best services and solutions to allow them to optimise their processes and boost their competitive strength."
