

**'s-Hertogenbosch, 31 January 2011**

## **Ctac to start off with Persity Resourcing and Persity Search**

**Ctac Netherlands BV, a subsidiary of ICT service provider Ctac NV (Ctac), has founded two new joint ventures with the owners of Persity Recruitment: Persity Search BV and Persity Resourcing BV.**

With Persity Resourcing, the two parties focus on secondment of SAP consultants. Ctac is now working mostly on a project and management basis, but will also expand its portfolio with secondment. In addition, Persity Resourcing will employ its own staff in the future. This involves consultants who choose a more entrepreneurial model. The remuneration of consultants is strongly linked to their revenue generating capabilities. By joining Persity Resourcing, employees benefit from the national network and the expertise of both Ctac and Persity. Persity Search focuses on recruitment and selection of SAP sales professionals and management personnel, for both Ctac and third parties.

Through this collaboration with Persity, Ctac will be better able to realize its HR objectives in the field of hiring, promoting and the exit of employees in the coming years. This is particularly important in view of existing and projected shortage of SAP professionals.

Ctac will hold 51 percent of the shares in the companies and Persity 49 percent. With the two joint ventures, Ctac broadens its service in the Netherlands. Ctac's share will increase in the coming years to 100 percent. The price that will be paid for this extension, will depend on future results.
