DOCdata supplies passport systems to Imprensa Nacional – Casa da Moeda S.A. for the personalisation of the Portuguese passport.

Industrial Automation Integrators (IAI) B.V. in Veldhoven, a subsidiary of DOCdata N.V. in Waalwijk, will supply 4 BookMaster 105 systems for the personalisation of Portuguese passports. The delivery of these systems is planned for 2006.

The decision of the Portuguese authorities to apply the security feature ImagePerf® to their passport led to the purchase of the above systems. The ImagePerf® feature is patented by IAI and IAI supplies the systems for the application of this feature in national travel and identification documents.

This decision once again confirms that the ImagePerf® and ImagePerf/TLI® security features are highly appreciated by the authorities for enhancing the security of their ID-documents. These features are already applied to passports, ID-cards, residence permits and drivers licenses and are used in Belgium, Estonia, Ireland, Sweden, Switzerland and the Netherlands.

- Industrial Automation Integrators (IAI) B.V. is a subsidiary of DOCdata N.V. specialised in the application of laser and optical technology. At present its main customers can be found in industrial activities such as security printing, packing material processing and motion picture subtitling.
- DOCdata N.V. is a leading and independent supplier of audio and multimedia CD's and DVD's and related services with subsidiaries in the Netherlands, France, Germany and the United Kingdom. DOCdata also supplies production equipment based on laser and optical technology.

Waalwijk, The Netherlands, 24 April 2006 – DOCdata N.V. (Euronext Amsterdam: DOCD)
