IAI industrial systems B.V. will supply passport personalisation systems to Algeria

IAI industrial systems B.V. in Veldhoven, The Netherlands, a subsidiary of the stock listed company DOCDATA N.V. in Waalwijk, The Netherlands, has received a new order from the Algerian Ministry of the Interior.

The Algerian Ministry of the Interior has ordered two IAI BookMaster One latest generation machines and one laminator module, in order to renew the non-biometric Algerian passports before 25 November 2015. The systems will be supplied this year. In the past, IAI has already delivered two BookMaster One systems and one machine for the application of ImagePerf® and NumberPerf® for the production of Algerian biometric passports.

BookMaster One systems perform the entire personalisation of the passport in one pass through the machine including verification of all operations performed. Thus, the systems turn blank books, inserted in the machine, into fully personalised passports ready for issuing. The BookMaster One has a modular setup which enables customers to procure and employ the total functionality of the systems or parts of it, all at once or in phases.

Being a leading equipment supplier to the Security Printing market, IAI industrial systems supplies systems for securing and/or personalisation of passports, ID-cards, driver licences, banknotes, diplomas and other security documents.

IAI's systems are in use in many countries such as: Netherlands, Belgium, Switzerland, Ireland, UK, Sweden, China, Russia, Ukraine, Canada, Portugal, Estonia, Costa Rica, Poland, Morocco, South Africa, Bulgaria, Algeria, India, Uzbekistan and Thailand.

IAI also offers laser processing systems for special industrial applications.

The listed DOCDATA N.V. exists of two lines of business:

IAI (www.iai-industrial-systems.com) is a high tech engineering company specialised in developing and building systems for very accurate and high speed processing of all kinds of products and materials. IAI delivers clients globally in the following sectors: securing and personalising of security documents, processing of solar cells and modules and processing of other materials and products.

Docdata (www.docdata.com) is a European market leader with a strong basis in The Netherlands, Germany and the United Kingdom. Docdata offers a complete e-commerce service portfolio to clients, enabling them to be successful on the Internet.

Waalwijk, The Netherlands, 10 March 2014
