

Ease2pay N.V. realiseert 30% platformomzet-groei in eerste helft 2025

- Aanhoudend sterke groei van het intelligente activatie- en betaalplatform waarmee locaties converteren naar selfservice, resulterend in een stijging van de omzet uit platform fees met 30% tot EUR 1,7 miljoen (H1 2024: EUR 1,3 miljoen)
- De netto-omzet, omzet minus kosten van de omzet, steeg met 71% tot EUR 1,2 miljoen (H1 2024: EUR 0,7 miljoen), als gevolg van stijging van de omzet en dalende kosten van de omzet.
- De EBITDA steeg tot EUR 0,4 miljoen positief (H1 2024: EUR 0,2 miljoen negatief).
- Het resultaat over het eerste halfjaar van 2025 bedroeg EUR 0,2 miljoen negatief (eerste halfjaar van 2024: EUR 0,6 miljoen negatief).
- Ease2pay verwacht een verdere groei van de EBITDA

In de eerste helft van 2025 groeide ook het aantal transacties (exclusief Miele appWash) met 39% ten opzichte van dezelfde periode in 2024. In Q2 2025 versnelde het aantal maandelijkse transacties door een sterke toename van de parkeertransacties. De sterke toename is mede het gevolg van de eind maart aangekondigde prijsstijging voor een concurrerende parkeerapp. Ease2pay heeft hierop ingespeeld door haar focus op de parkeermarkt verder te intensiveren. Daarnaast is met de toevoeging van Port of Antwerp-Bruges per 1 april 2025, een tweede top-5 EU-haven beschikbaar in de Ease2pay Walstroom app.

De Directie en de Raad van Commissarissen van Ease2pay hebben de halfjaarcijfers 2025 van de Vennootschap vastgesteld respectievelijk goedgekeurd. Met dit persbericht wordt het tussentijds bericht over het eerste halfjaar 2025 gepubliceerd, dat de verkorte tussentijdse financiële informatie over het halfjaar geëindigd op 30 juni 2025 weergeeft.

Het halfjaarbericht van Ease2pay N.V. over het eerste halfjaar 2025 is bijgevoegd.

Einde persbericht.

Gross profit (revenue less cost of revenue) increased 71% to EUR 1.2 million, due to increase of revenue and decreasing cost of revenue. Earnings before interest taxes, depreciations and amortisations (EBITDA) increased to EUR 0.4 million positive (for the six-month period ended 30 June 2024: EUR 0.2 million negative). The result for the six-month period, amounted to EUR 0.2 million negative, compared to EUR 0.6 million negative million in the six-month period ended 30 June 2024.

With it, operators of laundries, fuel stations, charge points, parking garages, ports, markets, truck and camper parks create self-service options for users. You control everything in one convenient app: Book, Stay, Use & Pay.

Ease2pay N.V. (hereafter referred to as: the “Company” and together with the entities it controls: the “Group”) is located in the Netherlands at Burgermeester Oudlaan 50, 3062 PA, Rotterdam and registered at the Dutch Commercial Register under number 16081306. The Company’s shares are listed on Euronext Amsterdam (ticker symbol: EAS2P).

The condensed consolidated interim financial statements for the six-month period ended on 30 June 2025 have not been audited or reviewed by an independent auditor.

2 Basis of preparation and general accounting policies

2.1 Statement of compliance

The condensed consolidated interim financial statements have been prepared in accordance with the IFRS Accounting Standard IAS 34 “Interim Financial Reporting”. These condensed consolidated interim financial statements do not include all the information required for full financial statements and are to be read in combination with the audited 2024 consolidated financial statements of the Group, which were prepared in accordance with IFRS Accounting Standards as adopted by the European Union (EU-IFRS).

2.2 Basis of preparation

The accounting principles applied to measure assets and liabilities and the determination of results in these condensed consolidated interim financial statements are the same as the measurement principles applied to the audited consolidated financial statements 2024, changes in IFRS Accounting Standards in 2025 are not relevant nor material for the Group. The changes in IFRS Accounting Standards that are applicable as from 1 January 2025 are mentioned below.

<i>Amendments to</i>	<i>Description</i>	<i>Application date and impact</i>
IAS 21 The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability	The amendments clarify when and how to determine whether a currency is exchangeable into another currency. Additional disclosures need to be made.	1 January 2025 The amendments have no impact.

Presentation currency

Unless stated otherwise, all amounts are reported in thousands of euros (EUR).

2.3 Presentation consolidated cash flow statement

As from 2025, the Group considered that using “Operating loss” as basis of its consolidated cash flow statement provides more relevant information (until 2024 “Loss before income tax” was used).

2.4 Restatement of comparative figures

In line with the restatement applied in the audited 2024 financial statements (see note 2.3), the Group has restated the carrying amounts of its deferred tax assets and equity in its statement of financial position as per 1 January 2023. The write-down of its deferred tax assets had reversed and netted with the deferred tax liabilities from the same

business combination, resulting in an increase of EUR 463 thousand of the Group's equity on 1 January 2024 (totalling to EUR 7,324, previously reported EUR 6,861 thousand).

As a result of this restatement, the reported result for the six-month period ended 30 June 2024 is EUR 53 thousand lower as presented in the condensed consolidated interim financial statements for the six-month period ended 30 June 2024.

3 Significant accounting judgements and estimates

In preparing these condensed consolidated interim financial statements, the Management Board has made judgements and estimates that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

3.1 Judgements

Going concern

The condensed consolidated interim financial statements of the Group are prepared using the going concern principle. In the reporting period, the Group had a result of EUR 0.2 million negative, which is EUR 0.4 million less than in the comparable period of previous year. The operational cash flow was EUR 0.3 million positive, an increase of EUR 0.5 million related to the comparable period in previous year. The cash and cash equivalents amounted to EUR 2.9 million on 30 June 2025, EUR 0.3 million higher related to 31 December 2024. The Group has sufficient financial resources available to fulfil its cash outflows for the twelve-month period after the publication date of this report.

Consolidation of Stichting Beheer Derdengelden Ease2pay

In 2017, Ease2pay B.V. entered into an agreement with Stichting Beheer Derdengelden Ease2pay ("the Foundation"), which sets out the conditions and approach that enable the Foundation to perform its statutory independent obligations. The purpose of the Foundation is to safeguard money of users of the transaction platform to pay for their parking and fuelling services. The amounts entrusted by the users of the platform to the Foundation shall be used to pay parking and fuel providers for their services. Due to the agreement, the Group may exert an influence on the Foundation's Board. It is agreed that all income and/or losses of the Foundation will be transferred to Ease2pay B.V., consisting of operational expenses of the Foundation (the reimbursements of Ease2pay B.V. reflects income of the Foundation) or interest income or expenses. Ease2pay B.V. settles the transactions on behalf of the Foundation with Foundation's counterparties.

The Group has concluded, in accordance with the consolidation requirements - (i) influence in the Board, (ii) exposed to variable results and (iii) the ability to exert an influence on the Board to affect Foundations' results - that the financial information of the Foundation needs to be consolidated. The balance sheet of the Foundation shows mainly cash and cash equivalents, trade and other liabilities that are presented in "Amounts entrusted to Stichting Beheer Derdengelden Ease2pay" and "Liabilities to Stichting Beheer Derdengelden Ease2pay" in the Group's consolidated statement of financial position. The Foundation's cash and cash equivalents are legally separated and are only available to pay for services provided to the users of the platform (in the line items mentioned above).

Principal versus agent for revenue out of settlement fees

The Group has contracts with financial institutions that provide services to enable payment processing, for which payment network fees are charged. The Group has applied judgement in determining whether it has control of the full payment service before the service is transferred to its customers and whether the Group acts as an agent or principal in relation to the settlement fees charged by financial institutions.

The Group is responsible for fulfilling the promise to provide payment transaction services. The Group is ultimately responsible for ensuring that the services are performed and are acceptable to the customers. The Group is thus considered to control the full payment service.

For all payments of processing settlement services that are provided to customers, the Group retains the exposure to financial institutions and the related payment costs. As such the Group has concluded it acts as principal for the aforementioned fees, and these are recognised in its revenue.

3.2 Estimates

Measurement of the intangible assets

In the six-month period ended 30 June 2025, the Group assesses the measurement of its intangible assets, goodwill and property, plant and equipment based on historical cost less amortisations and impairments, by estimating the expected future earning capacity. From an overall perspective, the results of the Group show stable and growing developments.

Measurement of deferred tax assets and liabilities

The Group's taxable income may be positive in the year, although the long-term perspective needs to be assessed based on further developments of the activities. The Group estimates that the carrying amount for deferred taxes for unused losses that is netted with the available deferred tax liabilities, is in line with the carrying amount of the deferred tax liabilities.
