

# Deutsche Bahn extends framework agreement with Ebusco

## Current partnership extended until 2026

**Deurne, 10 October 2023 – Ebusco (Euronext: EBUS), a pioneer and frontrunner in the development of electric buses, charging systems, and energy storage, remain to be the primary supplier to Deutsche Bahn for its 12- and 18 meter electric buses until 2026.**

The initial framework was signed in April 2022 and went into effect from 2023 until 2024. With this signing, the optional extension for 2025 and 2026 is officially confirmed. The framework agreement relates to the delivery of battery electric Ebusco buses.

### **Orders through framework**

Through the framework, multiple orders have been placed for the Ebusco 2.2 Model buses already, which will be deployed in more than 10 different projects. Out of those orders, multiple buses have already been delivered and hitting the roads. In addition, the companies are in final discussions for firm orders soon, which will bring the total so far to over 100 buses.

### **Mutual trust**

With this extension, Deutsche Bahn shows their trust and confidence in moving forward together. With the acceleration in terms of electric bus procurements and Deutsche Bahn's strong market position in Germany, we look forward to supplying many more zero emission buses. To date, Deutsche Bahn has only ordered Ebusco 2.2 buses, however, the contract also gives the possibility to order Ebusco 3.0 buses, this way Deutsche Bahn can offer the best possible solution tailored to the requirements of the different principals.

Patrick Oosterveld, Sales Director at Ebusco comments: *"It has been great to consistently work with Deutsche Bahn and build a partnership in which we can both rely on each other. We are very proud to have been selected as a supplier of electric buses until 2026 and expect two more fantastic years in which we will make a major contribution to emission-free transportation in Germany."*

**About Ebusco**

Ebusco is a developer, manufacturer, and distributor of zero emission buses and charging systems as well as a supplier of ancillary products and services to the electric vehicle ecosystem. As an innovative frontrunner in the development of electric buses, its mission is to contribute to a better living environment by driving the transition to zero emission public transportation.

Ebusco's buses currently operate in multiple countries in Europe, including in major cities such as Amsterdam, Berlin, and Munich. Ebusco was founded in 2012 and had a workforce of 809 full-time employees as at 30 June 2023. The company is headquartered in Deurne, the Netherlands.

Since 22 October 2021 Ebusco is listed on Euronext Amsterdam.
