Fastned raises over €36 million in bond issue

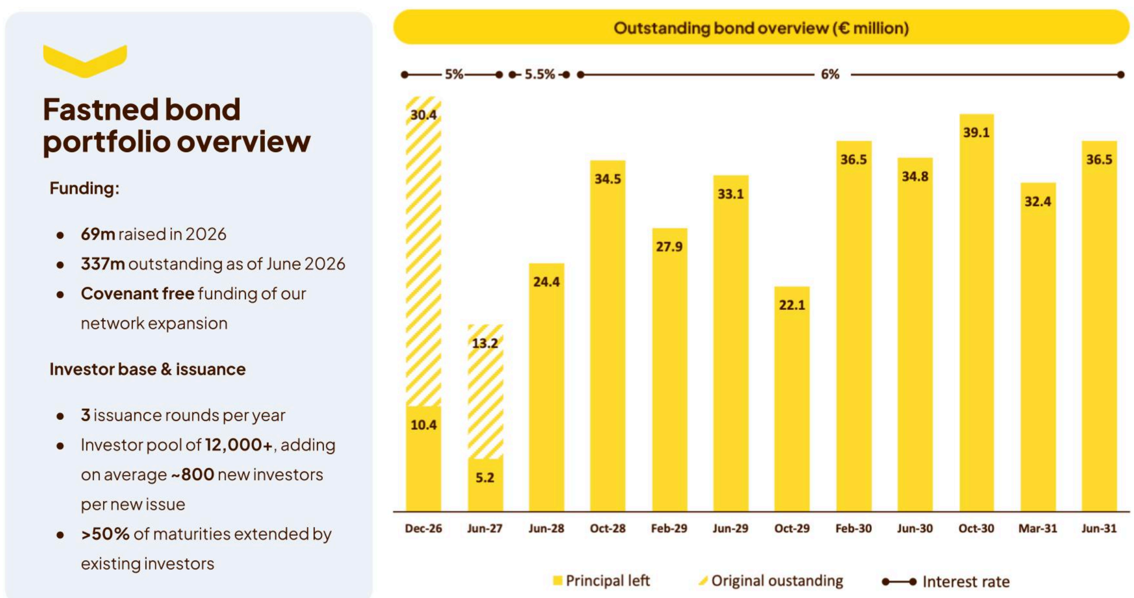
Amsterdam, 24 June 2026 **Fastned, a leading European fast charging company, has successfully completed its second retail bond campaign of 2026, raising €36.5m from thousands of individual retail investors in the Netherlands and Belgium.**

Funds raised will support Fastned's network expansion as sales of electric cars rose sharply during the first half of 2026. According to the European Alternative Fuels Observatory there are now **over 11 million** fully electric cars registered across the EU, UK and EFTA.

Fastned's network of fast charging stations spans nine countries, with 423 stations serving electric drivers across Europe. The company reported strong results for Q1 2026, generating **€39.2 million** in revenue related to charging (up 40% year-on-year and a new quarterly high for the company) and welcoming drivers for over **2.1 million** charging sessions, delivering **55.6 GWh** of renewable energy.

This tranche of retail bonds, which closed on Sunday 21 June 2026, was the 21st in Fastned's bond programme. Of the total **€36.5m** raised, a record **€35.1m** consisted of new investments - a Fastned record for a single tranche - while **€1.4m** came from long-standing supporters extending their investments from earlier tranches. This latest tranche brings the total outstanding amount of retail bonds to more than **€336 million**.

To date, **€45** million worth of bonds have been repaid by Fastned and **€81** million worth of bonds have been extended by investors prior to reaching maturity, showing investors' continued support for Fastned. More information on our bonds can be found on the [Investor Relations page on Fastned's website.]



Current outstanding Fastned bonds by maturity date (as of June 2026).

In January 2026 Fastned secured a [bank financing facility of up to €200 million] from a lending syndicate made up of ABN AMRO, Credit Agricole, ING, Invest-NL and Rabobank, initially supporting expansion in Belgium and Switzerland. In June the company officially opened the first ultra-rapid hub in London at [Hatton Cross] (close to Heathrow Airport) as part of its [partnership] with Places for London, the property company of Transport for London.

In early June 2026 the company also welcomed partners, investors and friends for an evening of discussion and Q+A at [Fastned Behind the Scenes.] On 22 June 2026 Fastned confirmed its intention to create [two new roles] as it accelerates its path towards profitable growth: a Chief Commercial Officer and a Vice-President Technology. Fastned will publish its interim report (covering H1 2026) on 13 August 2026.

Hatton Cross is Fastned's first station in partnership with Places for London.

"Europe's drive towards electrification has never been more urgent, and Fastned is responding to the challenge. The fast charging infrastructure we are building across the continent will serve drivers for decades to come, and the loyal support of thousands of bondholders is crucial in accelerating our build-out and driving society towards a clean, all-electric future."

- Michiel Langezaal, Co-founder and CEO of Fastned.

About Fastned

Fastned is on a mission to accelerate the transition to electric mobility. Since 2012, we've been at the forefront of European charging infrastructure development, building and operating a rapidly growing network of iconic fast charging stations. Our yellow, nature inspired stations create a welcoming environment for drivers during the 10-15 minutes it takes to charge up to 300 km of range. By offering Europe's most reliable, convenient and joyful charging experience, we aim to inspire millions to drive on solar and wind energy so that together we can curb climate change. Fastned is listed at Euronext Amsterdam (AMS: FAST) and is a certified B Corp.
