EIOPA publishes Opinion on the Solvency II review

NN Group has taken note of EIOPA's Opinion to the European Commission on the Solvency II review published on 17 December 2020. The Opinion, which consists of a proposed package of measures, will be used as input for the European Commission to draft a legislative proposal which will be discussed with the European Council and European Parliament in the coming years. The resulting legislation is currently expected to be implemented at the earliest in 2024.

Based on the EIOPA Opinion and current market conditions, the net impact from the proposed changes to the risk-free curve extrapolation and risk margin calculation on NN Group's Solvency II ratio at the expected implementation date is expected to be approximately -5%-points. This is compensated by an increase of operating capital generation of approximately EUR 50 million per annum as from the implementation date. These proposals do not change our capital return policy.
