

PEPIJN TIMMERMANS

Operations & Supply Chain Management

PROFILE

"As an experienced leader with a robust background in operations, supply chain and digitalization, I specialize in the manufacturing industry. I have a reputation for driving organizational change by enhancing processes, optimizing structures, and implementing cutting-edge IT solutions. I recognize that the success of any initiative hinges on the commitment and motivation of the team involved. Therefore, I adopt a bottom-up approach to problem-solving, prioritizing a thorough understanding of an organization's culture and challenges before devising and implementing solutions. I thrive on tackling complex challenges and am highly motivated by the opportunity to make a significant impact on an organization's success."
