

Press release

TKH Group N.V. (TKH)

TKH acquires VDG Security

TKH announces that it has reached agreement regarding the acquisition of VDG Security BV, based in Zoetermeer. VDG Security is a producer and distributor of high quality camera systems. It has a growing position in the video observation market in Europe. Through its in-house R&D VDG Security can offer tailor-made solutions.

VDG Security's security solutions consist of flexible video management systems with integrated video algorithms, including face-, license plate-, object- and scène recognition. The platform DIVA (Digital Intelligent Video Architecture) developed by VDG Security consist of open (IP) video management-software with integrated analysis tools.

The acquisition of VDG Security fits TKH's aim to further increase the proportion of security solutions in TKH's overall turnover to 20%.

VDG Security employs 31 people (FTE) and books an annual turnover of € 6 million. The activities will be incorporated in TKH's security cluster, which is part of the business segment Building Solutions.

The acquisition of VDG Security will have a positive impact on TKH's earnings per share as per the fourth quarter of 2008. The acquisition will be financed from TKH's available resources.

Haaksbergen, 31 October 2008

Profile

Technology company, TKH Group NV (TKH) is an internationally operating group of companies specialised in creating and supplying innovative Telecom, Building and Industrial Solutions.

At TKH the solutions play the central role, not the kind of activity. In the business segments Telecom Solutions, Building Solutions and Industrial Solutions, basic technologies in the field of ICT and electro technology from the various business units, often in partnership with suppliers, are consolidated into total solutions.

Specialists in the field of marketing, process development, design, engineering and logistics add consultancy and project implementation to offer a tailor made solution. These locally developed concepts are subsequently offered internationally, in order to optimally capitalize on the expertise and knowledge within TKH.

The Telecom Solutions consist of solutions ranging from basic infrastructure to home networking applications, for both the outdoor and indoor telecom (ICT) -markets. TKH Telecom Solutions can be divided into three sub segments: Fibre Networks, Copper Networks and Indoor Telecom Systems.

The Building Solutions comprise solutions ranging from efficient electrical engineering to ICT systems for the care sector. Building Solutions can be divided into three sub segments: Building Technologies, Security Systems and Connectivity Systems.

The Industrial Solutions consist of advanced manufacturing systems for the car and truck tyre manufacturing industry and connectivity systems for the medical, robot, automotive and machine building industry.

Continuous focus on research and development provides a product and services portfolio that safeguards technologically advanced solutions. With its group companies, TKH group is active all over the world. Its growth is concentrated on Northwest, Central and Eastern Europe and Asia. In 2007 TKH secured a turnover of € 837.8 million with 3,577 employees.
