

TomTom and Sanyo Announce Collaboration

Amsterdam 16 September, 2009 – TomTom and Sanyo are teaming up to bring built-in audio video navigation to automotive manufacturers. This multi media solution will combine Sanyo's audio video infotainment experience with TomTom's in car navigation technology. Both companies have already started negotiations with car manufacturers and co-produced products are expected to be released by the end of 2010.

About TomTom

TomTom NV is the world's leading provider of navigation solutions and digital maps. TomTom NV has over 3,300 employees working in four business units – TomTom, Tele Atlas, AUTO and WORK.

TomTom's products are developed with an emphasis on innovation, quality, ease of use, safety and value. TomTom's products include all-in-one navigation devices which enable customers to navigate right out of the box; these are the award-winning TomTom GO family, the TomTom XL and TomTom ONE ranges and the TomTom RIDER. Additionally, independent research proves that TomTom products have a significant positive effect on driving and road safety.

Tele Atlas delivers the digital maps and dynamic content that power some of the world's most essential navigation and location-based services (LBS). Through a combination of its own products and partnerships, Tele Atlas offers digital map

coverage of more than 200 countries and territories worldwide. The AUTO business unit develops and sells navigation systems and services to car manufacturers and OEMs. WORK combines industry leading communication and smart navigation technology with leading edge tracking and tracing expertise.

TomTom NV was founded in 1991 in Amsterdam and has offices in Europe, North America, Middle East, Africa and Asia Pacific. TomTom is listed at Euronext Amsterdam in The Netherlands. For more information, go to www.tomtom.com & <http://investors.tomtom.com/index.cfm>.
