### **Fountain Group: Trading Update Q1 2010.**

In the present difficult economical environment, the Fountain Group has reached end March 2009 its objectives in terms of operating cash flow.

The further implementation of the SAP software across the subsidiaries goes on as planned. The Group keeps close eyes on any external growth opportunities in particular on Dutch and French markets.

End March, the Fountain Group maintains its 2010 objectives, being an operating cash flow performance significantly higher than in 2009.
