3. NOTES TO THE CONSOLIDATED KEY FIGURES

3.1. NOTES TO THE CONSOLIDATED INCOME STATEMENT

NET RENTAL INCOME

The net rental income increased from € 19.57 million during the first 9 months of 2020, to € 20.02 million during the first 9 months of 2021.

OPERATING RESULT BEFORE THE PORTFOLIO RESULT

The operating result before the portfolio result increased from € 12.13 million during the first 9 months of 2020 to € 13.85 million during the first 9 months of 2021.

The operating margin¹¹ has increased to 64.5 % during the first half of 2021 (compared to 58.3% during the first half of 2020).

PORTFOLIO RESULT

During the first 9 months of 2021, Home Invest Belgium achieved a portfolio result of € 18.80 million.

The result on the sale of investment properties amounted to € 0.43 million during the first 9 months of 2021.

In addition, during the first 9 months of 2021, Home Invest Belgium recorded a positive change in the fair value of its real estate investments amounting to € 17.61 million. These changes are mainly due to:

- A positive change of € 21.49 million in Belgium, mainly in the residential segment of the property portfolio;
- A negative change of € 3.88 million in The Netherlands, due to an increase of the real estate transfer tax from 2.00% to 8.00%.

In accordance with the 'Valuation Practice Alert' published by the Royal Institute of Chartered Surveyors (RICS) on April 2nd 2020, the reports of the independent real estate experts state that for the tourist segment they were prepared taking into account a 'material evaluation uncertainty', as determined by the RICS standards. All other segments are valued without 'material evaluation uncertainty'.

The other portfolio result amounts to € 0.76 million. In this item, the changes in deferred taxes are recorded.

FINANCIAL RESULT

The net interest charges amounted to € -3.31 million in the 9 months of 2021. The average cost of debt¹² amounted to 1.58% during the first 9 months of 2021.

The changes in the fair value of the financial assets and liabilities amounted to € 2.11 million during the first nine months of 2021. These changes are the consequence of a change in the fair value of the interest rate swaps.

TAXES

Taxes amounted to € -0.16 million during the first 9 months of 2021 (compared to € -0.18 million during the first 9 months of 2020).

¹¹ Operating margin = (operating result before portfolio result)/(net rental result).

¹² The average funding cost is = the interest costs including the credit margin and the cost of hedging instruments and increased by capitalised interests divided by the weighted average financial debt over the period.

NET RESULT

The net result (group share) of Home Invest Belgium amounted to € 32.88 million during the first 9 months of 2021, or € 10.00 per share.

EPRA EARNINGS

After adjustment of the net result for (i) the portfolio result, (ii) the changes in the fair value of the financial assets and liabilities, and (iii) the non-EPRA elements of the share in the result of associated companies and joint ventures, EPRA earnings amount to € 11.50 million during the first nine months of 2021, an increase of 15.8% compared to € 9.94 million during the first nine months of 2020.

EPRA earnings per share increased by 15.7% from € 3.02 during the first 9 months of 2020 to € 3.50 during the first 9 months of 2021.

DISTRIBUTABLE RESULT

The sales of investment properties, realised in the first 9 months of 2021, resulted in a capital gain of € 5.24 million compared to the acquisition value (plus capitalised investments). These realised capital gains contribute to the distributable result, which forms the basis for the distribution of the dividend.

The distributable result¹³, defined as the EPRA earnings increased by the distributable capital gains realised on the sale of investment properties, amounted to € 16.74 million in the first 9 months of 2021, or € 5.09 per share.

3.2. NOTES TO THE CONSOLIDATED BALANCE SHEET

SHAREHOLDER'S EQUITY AND NAV PER SHARE

At 30 September 2021, the shareholder's equity of the group stood at € 341.03 million, which is an increase of 9.9% compared to 31 December 2020.

The IFRS NAV per share has risen by 9.9% to stand at € 103.70 at 30 September 2021 (compared to € 94.33 at 31 December 2020).

EPRA NTA per share has risen by 8.8% to stand at € 105.02 at 30 September 2021 (compared to € 96.50 at 31 December 2020).

¹³ The distributable result is defined as the EPRA earnings increased by the distributable capital gains realised on the sale of investment properties.

3.3. FUNDING STRUCTURE

DEBT RATIO

The debt ratio (RREC Royal Decree) amounted to 50.25% at 30 September 2021. The debt ratio (IFRS) amounted to 48.93%.

Considering a maximum permitted debt ratio of 65%, Home Invest Belgium still has a debt capacity of € 295.67 million, as defined by the RREC Royal Decree, in order to fund new investments.

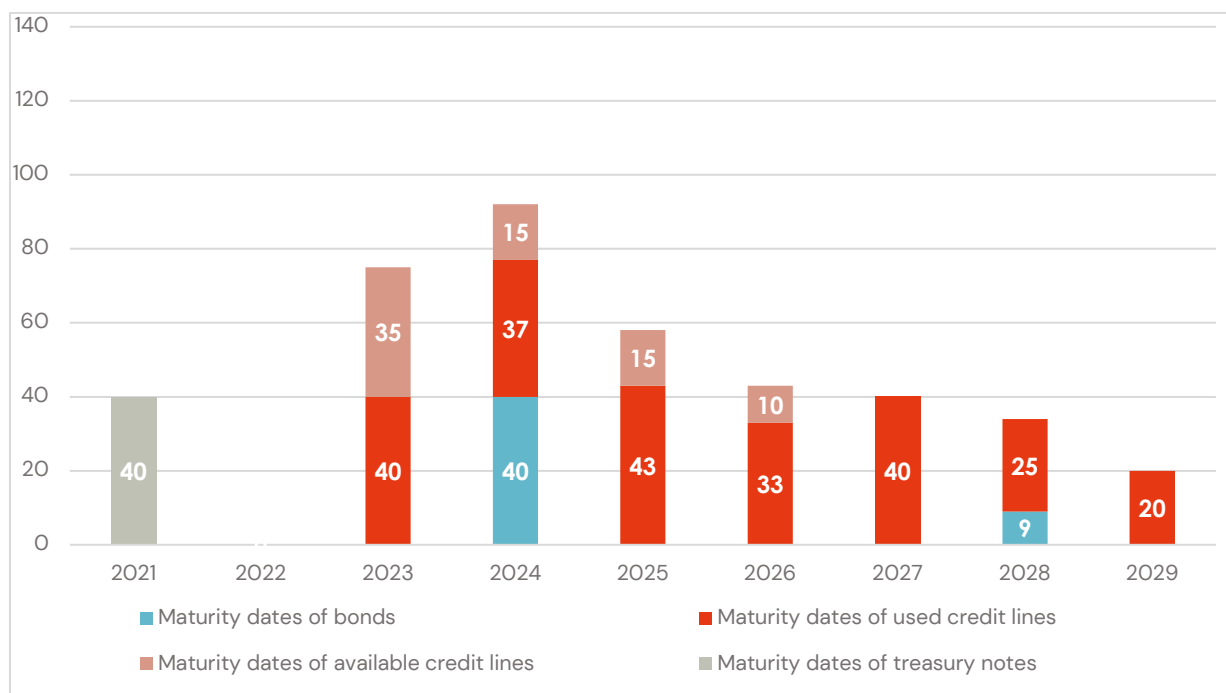

Considering Home Invest Belgium's strategy to keep the debt ratio in the medium and long term below 55%, Home Invest Belgium still has a debt capacity of € 74.02 million to fund new investments.

DEBT COMPOSITION

At 30 September 2021, Home Invest Belgium had € 327.00 million in financial debts composed of:

- Bilateral credit lines drawn for an amount of € 238.00 million with 7 different financial institutions, with well spread maturity dates until 2028. There are no maturities in 2021 and 2022. The first coming maturity date is in 2023;
- A bond for an amount of € 40.00 million, maturing in 2024 and a bond under the EMTN-program for an amount of € 9.00 million with maturity date in 2028;
- Treasury notes ("commercial paper") for an amount of € 40.00 million. Notwithstanding the short-term nature of the outstanding commercial paper, the outstanding amount is fully covered by available long-term credit lines (back-up lines).

Maturity of debts (€ mio)

The weighted average remaining duration of the financial debts amounts to 4.3 years.

At 30 September 2021, Home Invest Belgium disposed of € 75.00 million of undrawn available credit lines, of which:

- € 40.00 million long term back-up lines covering short-term outgoing treasury notes;
- € 35.00 million available credit lines.

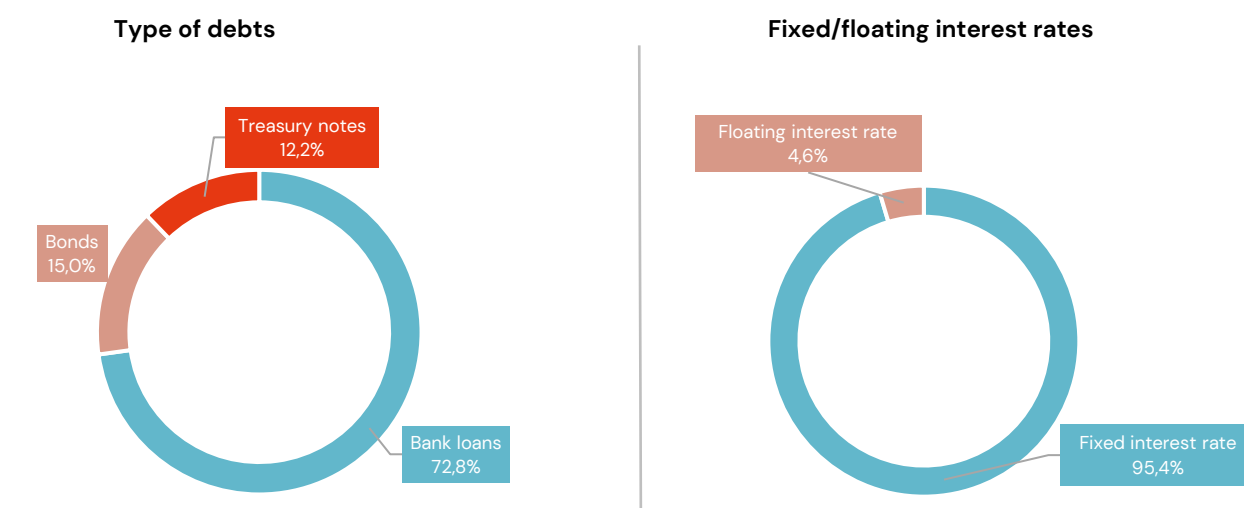

HEDGES

At 30 September 2021, 95.4% of financial debts (€ 312.0 million) had a fixed interest rate, using Interest Rate Swaps as hedging instruments, among other things.

The fixed interest rates have a weighted average remaining duration of 6.0 years.

The total value of the hedges at closing date was negative for an amount of € 3.04 million due to a decrease in interest rates after conclusion of the hedges.

Through its hedging policy, the board of directors wishes to protect the company against potential increases in interest rate.

4. ACTIVITY REPORT

4.1. RENTAL ACTIVITIES

Within its portfolio of more than 2,400 residential units, Home Invest Belgium maintained a good level of occupancy in the first half of 2021. In this period, the average occupancy rate¹⁴ amounted to 96.9% (compared to 94.5% over the same period in 2020).

4.2. ACQUISITIONS

Anderlecht (Brussels) – City Dox (Lot 4)

On 22 January 2021 Home Invest Belgium reached an agreement with Atenor to acquire LOT 4 from the City Dox project in Anderlecht, under the usual condition precedent that the permit becomes definitively enforceable.

On 9 November 2021 Home Invest Belgium finalised the transaction.

The site, ideally located right next to the Digue du Canal in Anderlecht, is part of a large-scale project along the Brussels-Charleroi canal, which is currently being redeveloped. LOT4 offers 163 residential units and 2,200m² destined to production activities.

The total investment amounts to some € 50 million. The gross initial yield is estimated at approximately 4.5% at full occupancy of the building. Completion is expected in 2023.

Anderlecht (Brussels) – Key West (Building A)

At 24 June 2021 Home Invest Belgium has reached an agreement with Immobil and BPI Real Estate to acquire building A from the Key West project in Anderlecht, subject to the usual condition of obtaining a definitively enforceable permit. The site, which borders the Biestebroek basin, is part of a mixed project ideally located at the entrance to the heart of the city. Building A offers 101 housing units and 840m² of retail space.

The total investment for the project will be close to € 30 million and the estimated gross initial yield will be around 4.5% once the building is fully occupied. Delivery of the project is scheduled for 2025.

¹⁴The average occupancy rate calculated as the average percentage over a certain period of time of the contractual rents of the rented spaces, in relation to the sum of the contractual rents of the rented spaces and the estimated rental value of the vacant spaces. The occupancy rate is calculated excluding (i) buildings being renovated (ii) buildings being commercialised for the first time and (iii) buildings being sold.

Antwerp – Ankerrui 9

On 21 May 2021 Home Invest Belgium has reached an agreement, subject to certain conditions precedent, to acquire 100% of the shares in The Ostrov NV, the company that owns the building located at 9 Ankerrui in Antwerp. The share price of the company is based on an investment value of the existing office building of approximately € 10 million.

On 21 October 2021 Home Invest Belgium finalised the transaction.

The building is currently let as office space under a fixed-term lease of 6 years, with a contractually stipulated annual rent of €648,000. After expiration of the lease, Home Invest Belgium plans to convert the building into a mixed project with about 30 residential units and a retail space on the ground floor. With its convenient location by the entrance to the Waasland tunnel and a nearby tram connection that runs right through the city, the project is also easily accessible.

With this acquisition in Antwerp, Home Invest Belgium is accelerating its growth strategy in Belgium's larger cities. The project is located near the Eilandje, an Antwerp hotspot that includes the Museum Aan de Stroom (MAS) on the Napoleondok. The district, a popular home for many Antwerp residents, lies at the crossroads between the Port of Antwerp and the historic city centre.

4.3. RENOVATION AND DEVELOPMENT PROJECTS

General progress of the renovation and development projects

In the first 9 months of 2021 the progress of the projects had a normal pace.

Delivery of The Felicity – Laken (Brussels)

The project The Felicity (Meyers-Hennastraat 5-17 in 1020 Brussels) has been delivered in June 2021. This project consists of the reconversion of an obsolete storage facility in Laken into 37 new apartments, 11 houses and 51 parking places. At the date of this press release, the building is fully occupied.

4.4.SALES

During the first 9 months of 2021, Home Invest Belgium has sold properties for a total net sales amount of € 9.88 million (compared to € 15.23 million during the first 9 months of 2019).

A net capital gain of € 0.43 million was realised on these sales compared to the latest fair value, i.e. 4.6% above the latest fair value, and a capital gain of € 5.24 million compared to the acquisition value (increased by capitalised investments).

The realised capital gain in relation to the acquisition value (increased by the capitalised investments) contributes to the distributable result of the company, which forms the basis for the distribution of the dividend.

5. OUTLOOK

DIVIDEND

Given the solid operational results of the company, the board of directors has decided to distribute an interim dividend of € 4,25 per share. More specifically, coupon nr. 31 will give entitlement to an interim dividend € 4.25 gross € 2.975 net per share (after deduction of the current withholding tax of 30%). The interim dividend will be paid on 10 December 2021.

For the years to come, the Board of Directors anticipates a dividend policy based on an annual increase in dividends equal to or higher than inflation. This is based on:

- the constant indexed rent flow from existing investment properties;
- the control of the operational costs of the company;
- the company's hedging policy, which provides good visibility on interest charges and makes them assessable in the medium term;
- the existing pipeline of project developments;
- The reserves that the company has built up over the years.

OUTLOOK

During the first 9 months of 2021, the operational results of Home Invest Belgium have developed positively.

The residential rental market continues to grow steadily in those cities where Home Invest Belgium is active, mostly thanks to:

- a long-term urbanisation trend, marked by demographic growth in big cities, including both young and older people, leading to increased demand for housing;
- an increasing number of tenants in big cities, due to factors including an increasing need for flexibility and a change in attitudes to private property and concepts of urban sharing.

Home Invest Belgium owns a sustainable portfolio given its young age. More than 50% of the investment properties available for rent are younger than 10 years. Given the quality and the location of the properties in predominantly large urban areas, Home Invest Belgium is well positioned to take on a leading role in the favourable trends of the residential market.

Home Invest Belgium is considering international expansion of its activities as a specialist in the residential rental market.

Against this background, the board of directors confirms its confidence in the long-term prospects of the company.

6. APM – ALTERNATIVE PERFORMANCE MEASURES

Home Invest Belgium has used Alternative Performance Measures (APM) within the meaning of the Guidelines issued by the European Securities and Markets Authority (ESMA) on 5 October 2015 in its financial communication for many years. A number of these APMs are recommended by the European Public Real Estate Association, EPRA, while others were established by the sector or by Home Invest Belgium to provide the reader with a better understanding of the company's results and performances.

Performance indicators that are defined by the IFRS or by law, and indicators that are not based on items in the income statement or the balance sheet, are not considered to be APMs.

HEDGING RATIO

Definition:

This is the percentage of financial debt with a fixed interest rate compared to the total financial debt. The numerator corresponds to the sum of fixed-rate borrowing plus floating-rate debts after conversion into fixed-rate debts via IRS contracts in effect at the end of the financial year. The denominator corresponds to the total amount of financial debt drawn on the closing date..

Doel:

Een aanzienlijk deel van de financiële schulden van de vennootschap zijn afgesloten tegen variabele interestvoet. Met behulp van deze APM kan het risico in verband met interestschommelingen alsook de mogelijke impact ervan op de resultaten gemeten worden.

Reconciliation:

(in € k)	30/09/2021	31/12/2020
Fixed-rate financial debt	89.000	79.000
Floating-rate financial debts converted into fixed-rate debt via IRS	223.000	203.000
Total fixed-rate debt	312.000	282.000
Total floating-rate debt	15.000	45.000
Total debt	327.000	327.000
Hedging ratio	95,41%	86,24%

AVERAGE COST OF DEBT

Definition:

The interest costs (including the credit margin and the cost of the hedging instruments) divided by the weighted average financial debt over the period in question. The numerator corresponds to the sum of the net interest costs included in item XXI of the income statement, after addition of the capitalized interest. The denominator corresponds to the average amount of financial debt calculated over the period.

Purpose:

The company is partly financed by debt. This APM is used to measure the average cost of the interests paid.

Reconciliation:

(in € k)	30/09/2021	30/09/2020
Net interest charges (heading XXI)	3.312	3.133

Weighted average amount of debt	246.167	236.436
Average cost of debt	1,58%	1,54%

EPRA NAV

Definition:

EPRA published the new Best Practice Recommendations for financial disclosures of listed real estate companies in October 2019. EPRA NAV is being replaced by three new Net Asset Value indicators: EPRA Net Reinstatement Value (NRV), EPRA Net Tangible Assets (NTA) and EPRA Net Disposal Value (NDV). The EPRA NAV indicators are obtained by adjusting the IFRS NAV in such a way that any shareholders receive the most relevant information about the value of the company's assets and liabilities.

Purpose:

- EPRA NRV: displaying the resources required to reconstitute the company through the investment markets based on the current capital and financing structure, including transfer taxes;
- EPRA NTA: displaying a NAV in which the real property and other investments have been revalued to their respective fair values, excluding certain items that are not expected to materialise into a long-term investment property business model;
- EPRA NDV: represents the NAV of the company in a scenario when all assets are being sold, and this scenario results in the value of any deferred taxes, debts and financial instruments being realised.

EPRA EARNINGS PER SHARE

Definition:

The EPRA earnings is the net result (share group) excluding the (i) portfolio result, (ii) the changes in the fair value of financial assets and liabilities, and (iii) the non-EPRA elements of the share in the results of associates and joint ventures. The term is used in accordance with the Best Practices Recommendations of EPRA.

Purpose:

This APM measures the underlying operational result of the company, without regard to the result of the change in the value of the assets or liabilities on the portfolio, gains or losses on the sale of investment properties and the other result of the portfolio.
