The preparation of annual accounts requires the use of certain critical accounting estimates. ### **2.2 Accounting policies and valuation rules**

#### **2.2.1 Foreign currency translation**

Transactions expressed in currencies other than Euro are translated into Euro at the exchange rate effective at the time of the transaction.

Formation expenses and long-term assets expressed in currencies other than Euro are translated into Euro at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historical exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the financial year.

Other assets and all liabilities are valued individually at the lower and the higher respectively, of their value at the historical exchange rate or their value determined at the exchange rates prevailing at the balance sheet date. Realised exchange gains and losses are recorded in the profit and loss account at the moment of their realisation. Only unrealised exchange losses are recorded in the profit and loss account.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealised losses are recorded in the profit and loss account and the net unrealised exchange gains are not recognised.

#### **2.2.2 Formation expenses**

Formation expenses are amortised on a straight-line basis over a period of 5 years.

#### **2.2.3 Financial assets**

Financial assets are valued in the accounts at purchase price/nominal value (loans and claims) including the expenses incidental thereto.

In case the Board of Directors deems that there is a durable depreciation in value of the financial assets, value adjustments are booked, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

#### **2.2.4 Debtors**

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is doubtful. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.
