Financial highlights

- **Consolidated revenues**, at € 1,448.9 million, fell by 2.2% compared to 2019, reflecting also the devaluation of almost all currencies against the euro, which was especially notable during the second half of the year. At constant exchange rates, the Group's sales grew slightly by +0.4%. Revenues for the new drugs acquired at the end of 2019, Signifor® and Signifor® LAR and initial sales of Isturisa® totalled € 79 million.
- **EBITDA⁽¹⁾** was € 569.3 million, an increase of 4.7% over 2019, thanks to expense controls and a better gross margin, at 39.3% of sales, up compared to 36.7% in 2019.
- **Operating income** was € 469.0 million, an increase of 0.8% over the previous year, lower compared to EBITDA growth due to the increase in amortization associated with new products, a margin of 32.4% of sales compared to 31.4%.
- **Net income**, equalled € 355.0 million, at 24.5% of sales, compared to € 368.9 million in 2019; excluding non-recurring "Patent Box" tax benefits, equal to € 2 million in 2020 and to € 27 million in 2019, net income increased by 3.2% thanks to the progress in operating income and the decrease in financial expenses.

Management Comments

"In 2020, our Group faced and successfully overcame various challenges, some of which were expected, such as the loss of exclusivity for some corporate products, others which emerged during the year at the onset of the COVID-19 pandemic. Despite the influence these events had on the market and therefore also on our business, the Group demonstrated resilience and the ability to react in a challenging environment. This allowed us to achieve absolutely positive results, with EBITDA of € 569.3 million, up by +4.7%, and Adjusted net income of € 410.4 million, up by +7.3%. This was possible thanks to all the Group employees who ensured the continuation of business even in the most acute stages of the epidemic", stated CEO Andrea Recordati. "We were able to limit the impact of the pandemic by carefully managing costs and successfully increasing our business in the rare diseases sector, by adding Signifor® and Signifor® LAR to our portfolio and launching Isturisa®, products acquired from Novartis in 2019. We also continued to work towards the growth and consolidation of our Group, with the launch of Cystadrops in the United States, and finalising new agreements to expand the portfolio. To this end, we added a license and supply agreement with ARS Pharmaceuticals, signed in September, for ARS-1, an epinephrine-based nasal spray, and an additional deal with Tolmar International Ltd, finalised at the beginning of 2021, for a license and supply agreement to market Eligard® (leuprolide acetate), a marketed medicinal product for the treatment of hormone dependent advanced prostate cancer.

All of these transactions lay the foundation for the Group's continued and solid growth. In 2021, with the help of the transactions already disclosed and assuming a gradual recovery of our reference markets after COVID-19 in the second half of the year, we expect revenues between € 1,570 million and € 1,620 million, EBITDA between € 600 million and € 620 million, and adjusted net income between € 420 and € 440 million".

Such program will be executed through an intermediary - which will operate in full independency ("riskless principal") – whose identification is on-going, further to a specific delegation of powers.
