

**ALTEA GREEN POWER: FINAL MILESTONE OF OVER €15 MILLION ACHIEVED
FOR THE 250 MW BESS RONDISSONE PROJECT**

**NET FINANCIAL POSITION, AT THE END OF 2025, CASH POSITIVE
SIGNIFICANT STRENGTHENING OF THE FINANCIAL STRUCTURE AND
CAPACITY TO SUPPORT FUTURE DEVELOPMENT INITIATIVES**

Rivoli (Turin), 8 January 2026 - **Altea Green Power (AGP.MI, hereinafter 'AGP' or 'the Company')**, a company active in the development of projects and the construction of green energy plants, announces the receipt of the latest milestone payment of over €15 million relating to the 250 MW Rondissone BESS project (TO) with a capacity of 250 MW, following the positive outcome of the preparatory activities for the project, already authorised by MASE (Ministry of the Environment and Energy Security) and developed on behalf of Aer Soléir ([see press release](#)).

Thanks to this payment, Altea Green Power's net financial position at the end of 2025 will be cash positive, with a significant strengthening of its financial structure and greater capacity to support future development initiatives.

Giovanni Di Pascale, CEO of Altea Green Power, commented: *"The completion of the Rondissone project is a major achievement for Altea Green Power, confirming the solidity of our business model, based on our ability to develop and enhance complex projects. This milestone allows us to close 2025 with a positive net financial position, which will enable us to support future growth prospects".*

About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, and storage - that ensure maximum efficiency and operational reliability, all while fully respecting the environment. Altea Green Power is also an Independent Power Producer (IPP) focused exclusively on renewable sources and a supplier of EPC (Engineering, Procurement, and Construction) services, positioning itself as the primary point of reference for the construction and start-up of renewable plants. In a market where energy transition is central and medium to large-sized companies are increasingly taking the lead, Altea Green Power aims to be a key partner in the field of energy efficiency, helping its clients identify the best solutions to reduce energy consumption and mitigate the resulting impacts on global climate change.
