-

THIS TRANSACTION BRINGS THE INDEPENDENT POWER PRODUCER (IPP) STRATEGY TO FRUITION, COMPLEMENTING DEVELOPMENT ACTIVITIES WITH DIRECT ASSET OWNERSHIP AND MANAGEMENT AS SET OUT IN THE 2024 - 2028 BUSINESS PLAN

Rivoli (Turin), 6 May 2026 - **Altea Green Power (AGP.MI, hereinafter "AGP" or "the Company")**, a company active in the development of "green energy" projects and construction of "green energy" plants, announces **the acquisition of a photovoltaic plant located in Montecchio Emilia (Reggio Emilia). This move strengthens the Company's position in the renewable energy market** and implements the strategy set out in its 2024–2028 Business Plan.

The transaction involves the acquisition of 100% of the SPV NB5 S.r.l., which owns a **photovoltaic asset** with a **capacity of 16.75 MW**, operational since January 2024. The plant also benefits from July 2025 of a FER 1 **feed in tariff**, with a duration of twenty years.

The **total purchase price** of the transaction is approximately **EUR 17 million** broken down as follows**:** approximately representing the value of the and approximately **EUR 1 million** for positive net working capital components.

This acquisition represents a further step in the growth path of Altea Green Power, in line with the evolution of the business model outlined in the 2024-2028 Business Plan, which envisions the progressive **strengthening** of the Company's **role as an Independent Power Producer** (IPP), complementing its development activities with direct asset ownership and management.

Giovanni Di Pascale, CEO of Altea Green Power, commented: *"This transaction is a concrete milestone in the strategy outlined in the 24-28 Business Plan we presented in 2024, designed to bolster our core business by establishing an increasingly direct presence in the industrial phase as an Independent Power Producer. The acquisition of an operational and incentivised asset in Emilia-Romagna with solid cash generation prospects allows us to take a significant step in this direction, further strengthening our market positioning. Looking ahead, we aim to capture comparable opportunities that align with our industrial strategy and our dedication to generating sustainable value over the long term".*

This first purchase allows Altea Green Power to anticipate the start of the development of the IPP portfolio to 2026, ahead of the original timeline of 2027, with the aim of reaching, if not exceeding, the provisions of the 2024 - 2028 Business Plan.

About Altea Green Power

Altea Green Power is a company listed on the Italian Stock Exchange - STAR segment -, founded in 2008 in Rivoli with the aim of supplying and managing renewable energy plants - photovoltaic, wind, and storage - that ensure maximum efficiency and operational reliability, all while fully respecting the environment. Altea Green Power is also an Independent Power Producer (IPP) focused exclusively on renewable sources and a supplier of EPC (Engineering, Procurement, and Construction) services, positioning itself as the primary point of reference for the construction and start-up of renewable plants. In a market where energy transition is central and medium to large-sized companies are increasingly taking the lead, Altea Green Power aims to be a key partner in the field of energy efficiency, helping its clients identify the best solutions to reduce energy consumption and mitigate the resulting impacts on global climate change.
