

PRESS RELEASE

AEROPORTO GUGLIELMO MARCONI DI BOLOGNA S.p.A.: The measures regarding night-time flying activity to avoid take-offs and landings on the city of Bologna have been confirmed

Bologna, 26 October 2023 – Guglielmo Marconi Airport of Bologna informs that, following a unanimous decision of the members of the airport "noise" Commission, ENAC, with today's Ordinance of the Emilia-Romagna Territorial Directorate, has extended until 31 March 2024 the operational procedures decided in the inter-institutional technical tables last June and implemented in recent months on an experimental basis. This is based on the positive results of the measures to reduce night-time overflight impacts on the city of Bologna, and always without prejudice to essential needs related to the safety and security of flight operations.

The airport company expresses satisfaction for the close cooperation of the component bodies, together with the manager, the Commission and for the common and constant search for a balanced approach to these issues, in compliance with regulations and best international practices. AdB's commitment, also in this area, will continue with periodic updates and the progressive implementation of its innovation and sustainability plans.

***Aeroporto Guglielmo Marconi di Bologna**, classified as a "strategic airport" in the centre-north area of the National Airports Plan prepared by the Ministry of Infrastructure and Transport, recorded in 2022 - a year still affected by the global pandemic – 8.5 million passengers, ranking as the seventh biggest Italian airport by number of passengers (Source: Assaeroporti). Located in the heart of the Emilian food valley and the automotive and packaging industrial districts, the airport has a catchment area of about 11 million inhabitants and around 47,000 companies, with a strong propensity to exports and internationalisation and with commercial expansion policies to Eastern Europe and Asia.*

As for airport infrastructure, the airport has among its strategic objectives in the next few years an important development plan that mainly concerns the expansion of the terminal, particularly in the parts of security checks and gate area. The company's aim is to make Bologna Airport one of the most modern and functional in Italy, an important gateway to the city and region.
