

PRESS RELEASE

Iren awarded 1,943MW in the 2025 capacity market auction

1

Reggio Emilia, 31 July 2024 - The outcome of the main auction of the capacity market for the delivery year 2025 confirmed for the Iren Group, as already happened for the delivery years 2022-23-24, the assignment of 100% of the qualified and offered capacity. In particular, offers were accepted for 1,943 MW of existing capacity in the North area, valued at a price of €45,000/MW/year.

This is an excellent result that enhances the Group's electricity generation assets - in particular the thermoelectric, cogeneration and programmable hydroelectric plants - contributing to the investment program aimed at making the production park more flexible and efficient, on the path towards the energy transition.
