

Franchetti is attending the “Financial Gala” organized by Integrale SIM on November 17, 2023

Arzignano (VI), November 15, 2023 - Franchetti S.p.A. (Ticker BIT: FCH), parent company of the Group leader in software development and engineering design listed on Euronext Growth Milan, announces its participation at the “Financial Gala”, an event organized by **Integrale SIM**, a leader in Italy in corporate finance for SMEs. The event is taking place on **November 17, 2023, in Milan, Piazza Armando Diaz, 7, at the Terrazza Martini**.

The event aims to facilitate the interaction and knowledge sharing between the financial community and small and medium-sized enterprises, fostering connections, collaborations and the sharing of projects and strategies with the entire investors' ecosystem.

The meeting will be attended by Mr. Paolo Franchetti, Chairman and CEO of Franchetti S.p.A..

The presentation that will be used during the event will be made available on the website www.franchetti.tech, section “Investor Relations / Presentations”.

This press release is available at www.franchetti.tech, section “Investor Relations / Financial Press Releases” and at www.1info.it

Franchetti S.p.A.

Franchetti S.p.A. Franchetti S.p.A. heads the Franchetti Group, a pioneer in the field of management, diagnostics and predictive maintenance of infrastructures, bridges and viaducts in particular. Founded in 2013 in Arzignano (VI) with subsidiaries in Brazil and Canada, operations in the USA and in India, Franchetti is an innovative SME that has operated on over 40,000 equivalent motorway and railway bridges worldwide. The Group boasts a technical and scientific curriculum that places it

Certified by:

among the leading international experts in the sector. The activity is divided into two main business lines: diagnosis and therapy services for infrastructure maintenance with inspections and assessments, intervention planning and construction management and ICT services for predictive programming of infrastructure maintenance. Franchetti has in fact developed two proprietary software that exploit the potential of artificial intelligence and predictive data analysis: Argan® which allows you to estimate the life cycle of the infrastructure and therefore automatically obtains the trend of the level of security over time in different scenarios and maintenance contexts and Pathwork© which allows for optimized management of road and motorway infrastructure construction sites and for sustainable mobility. With a workforce of 70 professionals, over 90% of whom have engineering degrees, the Group achieved a Value of Production of 2.9 million euros in 1H2023, of which 82% was generated in Italy and 18% in Brazil.
