Franchetti S.p.A.

Franchetti S.p.A. heads the Franchetti Group, a pioneer in the management, diagnostics and predictive maintenance of infrastructure (bridges and viaducts in particular). Founded in **2013** in Arzignano (VI), with subsidiaries in **Brazil and Canada** and operations in the US and India, Franchetti is an **innovative SME** that has worked on **over 40,000** equivalent motorway and railway **bridges** worldwide. The Group boasts a technical and scientific track record that places it among the industry's leading international experts. Operations are broken into **two main business lines**: diagnosis and planning for infrastructure maintenance, with inspections and assessments, intervention planning and construction management and ICT services for the predictive programming of infrastructure maintenance. Franchetti has in fact developed **proprietary software** programs that leverage the potential of artificial intelligence and predictive data analysis: **Argan®** can estimate an infrastructure's life cycle and automatically assess safety levels over time for a range of maintenance scenarios and contexts, **Pathwork®** ensures the optimized management of road and highway works on infrastructure and to support sustainable mobility, while **SIDECHECK®** can intelligently compare collected data related to inspections, inspectors, schedules, and work estimates to make the evaluation process as objective and complete as possible. With a staff of 130 professionals, of which more than 90% have a degree in engineering, the Group achieved in the first six months of 2025 a Value of Production of 5.7 million Euros (+62% on 1H24) and an EBITDA of 1.8 million Euros (+68% compared to 1H24).
