Net loss, inclusive of the change in unrealized appreciation of holdings, for the three months ended April 30, 2015 was \$169.0 million compared to net income of \$58.2 million for the comparative period in 2014. Net income, inclusive of the change in unrealized appreciation of holdings for the six months ended April 30, 2015 was \$46.4 million compared to a net loss of \$290.9 million for the comparative period in 2014. Virtually all of the net income (loss) for both the three and six-month periods ended April 30, 2015 was a result of the change in the unrealized appreciation of holdings during the period which was driven by the higher prices of gold and silver bullion during the six-month period (though the prices of both gold and silver were lower during the most recent three-month period). Certain expenses, such as administration fees and safekeeping fees, vary relative to net asset levels. Administration fees, which are scaled and are calculated monthly based on the total net assets at each month-end, decreased by \$180,951 and \$307,052 respectively during the three and six-month periods ended April 30, 2015 as compared to the same periods in 2014. The decreases in administration fees were a direct result of the lower levels of average net assets under administration during the three and six-month periods.

Expenses as a percentage of average month-end net assets (the "expense ratio") for the three and six-month periods ended April 30, 2015 remained unchanged from their comparative periods in 2014 at 0.08% and 0.16% respectively. For the twelve-month period ended April 30, 2015, the expense ratio remained unchanged at 0.32% from the comparative twelve-month period ended April 30, 2014.
