About Calian

Calian employs over 2,300 people with offices and projects that span Canada, U.S. and international markets. The company's capabilities are diverse and include the provision of business and technology services to industry and government in the health, training, engineering and IT services domains as well as the design, manufacturing and maintenance of complex systems to the communications and defence sectors. Calian's services are delivered through two divisions. The Business and Technology Services (BTS) Division is located in Ottawa. This division delivers outsourcing services for a variety of technical and professional functions and provides health services to numerous domestic customers. Our strength lies in understanding clients' needs, recruiting highly qualified personnel who understand and meet those needs, and then effectively managing those personnel within our customers' framework. Calian's Systems Engineering Division (SED) located in Saskatoon plans, designs and implements complex communication systems for many of the world's space agencies and leading satellite manufacturers and operators. SED also provides contract manufacturing services for both private sector and military customers in North America.
