Getty Copper Commences Trading on OTCQX Best Market

Vancouver, British Columbia--(Newsfile Corp. - August 6, 2026) - Getty Copper Inc. (TSXV: GTC) (OTCQX: GTCDF) ("**Getty**" or the "**Company**") is pleased to announce that its common shares have commenced trading on the OTCQX Best Market under the symbol GTCDF. The Company's common shares will continue to trade on the TSX Venture Exchange under the symbol "GTC."

Trading on the OTCQX is expected to increase Getty's visibility within the U.S. investment community, improve accessibility for U.S. investors and support the Company's broader investor relations strategy. Comprehensive market data and real-time price quotes can be found on www.otcmarkets.com.

The OTCQX listing follows an active period of exploration at the Getty Project. As part of its 2026 spring drilling campaign, the Company completed 10,807 metres across 28 holes, comprising 15 at Getty North and 13 at Getty South. Initial results from Getty North included 342 metres grading 0.50% copper from 9 metres depth, including 108 metres grading 0.70% copper, while expansion drilling extended known mineralization beyond historical drilling. Getty plans an additional 4,000 to 6,000 metres of drilling in the fall of 2026, focused on further resource expansion and testing priority exploration targets.

Ryan O'Regan, CEO of Getty Copper, commented, *"Commencing trading on the OTCQX represents another important milestone for Getty as we continue to broaden our capital markets presence. This listing provides greater accessibility for U.S. investors while complementing our TSX Venture Exchange listing and ongoing efforts to expand awareness of the Company as we advance our Getty Copper Project."*

Following the commencement of trading on the OTCQX, Getty is implementing several capital markets initiatives intended to expand investor awareness and support an active and orderly market for its common shares.

To increase its visibility among investors and broaden its market reach, the Company has engaged Investing News Network ("**INN**") to provide digital marketing and investor awareness services for a term of eight months for total consideration of $40,000, plus applicable taxes, payable as an initial deposit of $15,000, with the remaining balance payable in two equal installments over the term of the agreement. The services are intended to increase awareness of the Company among the investment community through INN's digital network and marketing platform.

INN is a private company headquartered in Vancouver, British Columbia, that operates a digital media platform focused on news, education and investor awareness for the resource, technology and life sciences sectors. INN and the Company are arm's-length parties. To the knowledge of the Company, neither INN nor its principals have any direct or indirect interest in the Company or its securities, nor any right or intent to acquire such an interest, except as may arise through ordinary course of trading.

The Company has also retained Venture Liquidity Providers Inc. ("**VLP**") to initiate its market-making service to provide assistance in maintaining an orderly trading market for the common shares of the Company. VLP is a specialized consulting firm based in Toronto providing a variety of services focused on TSX-V-listed issuers.

The market-making service will be undertaken by VLP through a registered broker, W.D. Latimer Co. Ltd., in compliance with the applicable policies of the TSX Venture Exchange and other applicable laws. For its services, the Company has agreed to pay $5,000 per month. The agreement has no fixed term and may be terminated at any time by the Company or VLP. The Company and VLP act at arm's-length, and VLP has no present interest, directly or indirectly, in the Company or its securities. The finances and the shares required for the market-making service are provided by W.D. Latimer. The fee paid by the

Company to VLP is for services only.

Both agreements remain subject to the approval of the TSX Venture Exchange.

About Getty Copper Inc.

Getty Copper Inc. is a Canadian-based mineral exploration and development company focused on the Highland Valley region of British Columbia, Canada. Its flagship, 82% owned Getty Project is located near Logan Lake and adjacent to Teck's Highland Valley Copper Mine and has the potential to be a significant new source of copper and molybdenum in the district.

Cautionary Note Regarding Forward-Looking Statements

This news release contains statements that constitute "forward-looking statements." Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause Getty's actual results, performance or achievements, or developments to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the words "expects," "plans," "anticipates," "believes," "intends," "estimates," "projects," "potential" and similar expressions, or that events or conditions "will," "would," "may," "could" or "should" occur.

Forward-looking statements in this document include, among others, statements relating to expectations regarding: the Company's continued trading on the TSX Venture Exchange; the benefits of the trading of the Company's common shares on the OTCQX Best Market; advancement of the Getty Copper Project; the provision and anticipated benefits of the services to be provided by INN and VLP; including their ability to increase investor awareness and support and maintain an active and orderly market for the Company's common shares; payments to be made under the INN and VLP agreements; and the receipt of TSX Venture Exchange approval for those agreements.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors, which may cause actual events or results in future periods to differ materially from any projections of future events or results expressed or implied by such forward-looking information or statements, including, among others: negative operating cash flow and dependence on third parties, uncertainty of additional financing, no known mineral reserves or resources, aboriginal title and consultation issues, reliance on key management and other personnel, actual results of exploration activities being different than anticipated, changes in exploration programs based upon results, availability of third party contractors, availability of equipment and supplies, failure of equipment to operate as anticipated; the occurrence of a force majeure; accidents, effects of weather and other natural phenomena and other risks associated with the mineral exploration industry, environmental risks, changes in laws and regulations, community relations and delays in obtaining governmental or other approvals.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. The Company undertakes no obligation to update or reissue forward-looking information as a result of new information or events except as required by applicable securities laws.
