Target Anomalies Discovered on RJK Explorations Normetal East Property in Quebec

KIRKLAND LAKE, ONTARIO – (September 20, 2017) – **RJK Explorations Ltd.** (TSX VENTURE: RJX.A) wishes to provide an update of its ongoing exploration work at its 15 kilometer-long Normetal East Property located just north of the town of La Sarre, Quebec and easily accessible by Highway 393.

Phase One line cutting and ground geophysical surveying has been completed over an initial area of interest covered by Esker sand and several target anomalies have been discovered. With all government permitting in place and some site preparation currently being completed, these initial target anomalies will be tested shortly by diamond drilling.

The Company's Normetal East Property covers the "mine sequence" which contains the Normetal Deformation Zone hosting the past producing Normetal Mine (> 10 million tonnes grading 5.41% Zn, 2.24% Cu, 44.45 g/t Ag and .546 g/t Au, information taken from MRN, DV90-01, Rapports des geologues residents sur l'activite miniere regionale.) and the Gisement de Normetmar Zinc, Copper deposit, both located approximately 10 kilometers to the north-west.

RJK Explorations has completed updates to its web site with detailed information on the Normetal East Property as well as the recently staked Shallow River Property in Ontario.

Jeannot Theberge, PGeo., is the Qualified Person as defined under National Instrument 43-101 standards and has prepared, supervised the preparation or approved the scientific and technical disclosure in the news release.

Disclosure Regarding Forward-Looking Statements: This press release contains certain "Forward-Looking Statements" within the meaning of applicable securities legislation. We use words such as "might", "will", "should", "anticipate", "plan", "expect", "believe", "estimate", "forecast" and similar terminology to identify forward looking statements and forward-looking information. Such statements and information are based on assumptions, estimates, opinions and analysis made by management in light of its experience, current conditions and its expectations of future developments as well as other factors which it believes to be reasonable and relevant. Forward-looking statements and information involve known and unknown risks, uncertainties and other factors that may cause our actual results to differ materially from those expressed or implied in the forward-looking statements and information and accordingly, readers should not place undue reliance on such statements and information. Risks and uncertainties are more fully described in our annual and quarterly Management's Discussion and Analysis and in other filings made by us with Canadian securities regulatory authorities and available at www.sedar.com. While RJK believes that the expectations expressed by such forward-looking statements and forward-looking information and the assumptions, estimates, opinions and analysis underlying such expectations are reasonable, there can be no assurance that they will prove to be correct. In evaluating forward-looking statements and information, readers should carefully consider the various factors which could cause actual results or events to differ materially from those expressed or implied in the forward looking statements and forward-looking information.
