FORM 27

SECURITIES ACT

MATERIAL CHANGE REPORT UNDER SECTION 75(2) OF THE ACT

NOTE: This form is intended as a guideline. A letter or other document may be used if the substantive requirements of this form are complied with.

NOTE: WHERE THIS REPORT IS FILED ON A CONFIDENTIAL BASIS PUT AT THE BEGINNING OF THE REPORT IN BLOCK CAPITALS "CONFIDENTIAL -S.75"

Item 1. Reporting Issuer

State the full name and address of the principal office in Canada of the reporting issuer.

ABACUS MINERALS CORPORATION
611 - 675 West Hastings Street
Vancouver, B.C.
V6B 1N2

Item 2. Date of Material Change

June 8, 2000

Item 3. Press Release

State the date and place(s) of issuance of the press release issued pursuant to Section 75(1) of the Act.

June 8, 2000

Item 4. Summary of Material Change

Provide a brief but accurate summary of the nature and substance of the material change.

For details, please refer to the attached press release, issued on **June 8, 2000**.

Item 5. Full Description of Material Change

Supplement the summary required under Item 4 with the disclosure which should be sufficiently complete to enable a reader to appreciate the significance of the material change without reference to other material. Management is in the best position to determine what facts are significant and must disclose those facts in a meaningful manner. See also Item 7.

This description of the significant facts relating to the material change will therefore include some or all of the following: dates, parties, terms and conditions, description of any assets, liabilities or capital affected, purposes, financial or dollar values, reasons for the change, and a general comment on the probable impact on the report issuer or its subsidiaries. Specific financial forecasts would not normally be required to comply with this form.

The above list merely describes examples of some of the facts which may be significant. The list is not intended to be inclusive or exhaustive of the information required in any particular situation.

For further details, please refer to attached News Release dated **June 8, 2000**.

Item 6. Reliance on Section 75(3) of the Act

If the report is being filed on a confidential basis in reliance on Section 75(3) of the Act, state the reasons for such reliance.

N/A

INSTRUCTION:

Refer to Section 75 of the Act and to the Regulation concerning continuing obligations in respect of reports filed pursuant to section 75(3) of the Act.

Item 7. Omitted Information

In certain circumstances where material change has occurred and a material change report has been or is about to be filed by Section 75(3) of the Act will no longer or will not be relied upon, a reporting issuer may nevertheless believe one or more significant facts otherwise required to be disclosed in the material change report should remain confidential and not be disclosed or not be disclosed in full detail in the material change report.

State whether any information has been omitted on this basis and provide the reasons for any such omission in sufficient detail to permit the Commission to exercise its discretion pursuant to section 140(2) of the Act.

The reasons for the omission may be contained in a separate letter filed as provided in section 4 of the Regulation.

N/A.

Item 8. Senior Officers

To facilitate any necessary follow-up by the Commission, give the name and business telephone number of a senior officer of the reporting issuer who is knowledgeable about the material change and the report or an officer through whom such senior officer may be contacted by the Commission.

Steve L. Todoruk, PH: (604) 682-0301

Item 9. Statement of Officer

The foregoing accurately discloses the material change referred to herein.

DATED at Vancouver, British Columbia this **9th** day of **June, 2000**.

NEWS RELEASE

Abacus Stakes Property in the Wells Area of British Columbia

Abacus Minerals Corporation (the "Company") is pleased to announce that it is active in the Wells/Barkerville area of British Columbia. Encouraged by the recent discovery of a new style of gold mineralization by International Wayside Gold Corp., the Company has staked 130 mineral claims adjoining Wayside's property, southwest of the new Bonanza Ledge discovery.

The Wells-Barkerville area is best known for the 1860s Cariboo placer mining gold rush and lode mining in the 1930s. Historically, the area has produced 3.9 million ounces of gold (2.6 million placer and 1.2 million lode).

Abacus' BUD Claims is underlain by a sequence of undivided rocks similar to those hosting the Bonanza Ledge mineralization. Early sampling indicates that the Bonanza Ledge discovery represents pyrite-rich, stratabound mineralization which may have the potential for large tonnage gold targets. In Canada, an example of this stratabound style, pyrite/gold mineralization is the Bousquet Deposits of Quebec which host 20 million tons grading 5.0 g/t gold.

Abacus has retained the services of Pamicon Developments Ltd. to design a field program for the newly acquired BUD Claims and to review other projects and potential acquisitions in the area.

On Behalf of the Board,
ABACUS MINERALS CORPORATION

"Steve L. Todoruk"
