

SOMEC: US SUBSIDIARY FABBRICA WINS A NEW CONTRACT WORTH 29 MILLION DOLLARS

Fabbrica, part of the Horizons division, awarded contract to build façade of hospital in Hartford, Connecticut

Somec Chairman Oscar Marchetto has commented: *“We take great pride in being increasingly recognised as a trusted partner in efforts dedicated to advancing public health and medical research.*

A project that combines technology, functionality and beauty, allowing us to showcase the expertise gained from major projects across North America.”

San Vendemiano (Treviso), 10 November 2025 – Somec S.p.A. (Euronext Milan: SOM), specialising in the design, production and installation of complex turnkey civil and naval projects, has announced that its US subsidiary Fabbrica LLC — which is part of the *Horizons, Engineered Systems for Naval Architecture and Building Façades* division — has won a contract for the construction of the façade of a healthcare facility in Hartford, Connecticut (USA).

The contract value totals 29 million dollars, with expected economic impact between the second half of 2026 and 2027.

The project covers a nine-story building within a renowned healthcare complex that has been at the forefront of training, research, and advanced surgical care for over a century. Recognised as a cornerstone of both Hartford and the state of Connecticut, the complex is a symbol of medical excellence and innovation

Specifically, Fabbrica will design a bespoke curtain wall system spanning over 11,000 square metres. Distinguished by its advanced technical specifications and striking architectural design, the system will encompass every phase, from initial design to full engineering implementation. The project is scheduled for completion within the two-year period 2026–2027.

Oscar Marchetto, Chairman of the Somec Group, has commented: *“We take great pride in being increasingly recognised as a trusted partner in efforts dedicated to advancing public health and medical research. Our work seamlessly blends technology, functionality, and aesthetics, as we are aware that healthcare spaces must be designed to nurture and elevate the well-being of those who rely on them on a daily basis. This vision is also reflected in our architectural and engineering expertise, as we work alongside with leading industry partners. For Fabbrica and the entire Somec Group, this contract affords a new opportunity to showcase the expertise gained through prestigious projects across North America, a region that has long recognised us as trusted and innovative leaders.”*

Somec

The Somec Group is a leading specialist in the engineering, design and rollout of complex turnkey projects in the civil and naval engineering sectors, operating through three divisions: Horizons: Engineered Systems for Naval Architecture and Building Façades; Talenta: Professional Kitchen Systems and Products; and Mestieri: Design and Production of Bespoke Interiors.

The Group's companies operate in an integrated and synergistic manner, observing strict quality and safety standards and guaranteeing a high degree of customization and specific know-how on the processing of different materials, a fundamental requirement for high value-added projects.

Boasting over 40 years of experience and a rigorous certification and accreditation process, Somec has gained a reputation for quality and operational and financial reliability on a global scale.

Headquartered in San Vendemiano, Treviso, the Group is present in 12 countries and 3 continents, employing over 1,000 people and with revenues of 383 million Euro in 2024.
