

**FORM 51-102F3**

**MATERIAL CHANGE REPORT  
UNDER SECTION 7.1(1) OF NATIONAL INSTRUMENT 51-102**

**Item 1.      Reporting Issuer**

Vega Resources Inc. (the Issuer)  
605 - 889 West Pender Street  
Vancouver, BC V6C 3B2

**Item 2.      Date of Material Change**

November 2, 2010

**Item 3.      News Release**

News Release dated November 2, 2010 and disseminated to the Canada Stockwatch Magazine, British Columbia Securities Commission, Alberta Securities Commission and Market News Publishing.

Place of Issuance: Vancouver, British Columbia

**Item 4.      Summary of Material Change**

The Issuer has commenced a trenching program on its Gold Hill prospect situated near Hedley, British Columbia.

**Item 5.      Full Description of Material Change**

The Issuer is pleased to announce that it has commenced a trenching program on its Gold Hill prospect situated near Hedley, British Columbia.

The Gold Hill prospect represents a shear/vein style gold mineralization target situated in an area of large-scale historical exploration and mining. The Issuer's exploration program is primarily focused on a trenching program to follow the southern and northeastern extensions of the Hed zone as a follow-up on 2009 exploration.

This news release has been reviewed and approved for technical disclosure by, consulting Geologist, Dr. Bohumil (Boris) Molak, PhD., P.Geo (BC), a Qualified Person under National Instrument 43-101.

**Item 6.      Reliance on Subsection 7.1(2) or (3) of National Instrument 51-102**

The Issuer is not relying on subsection 7.1(2) or (3) of National Instrument 51-102.

**Item 7.        Omitted Information**

There is no omitted information.

**Item 8.        Senior Officer**

Anthony J. Beruschi, President ñ 604.669.5819.

**Item 9.        Statement of Senior Officer**

The foregoing accurately discloses the material change referred to herein.

**DATED** at the City of Vancouver, in the Province of British Columbia, this 5<sup>th</sup> day of November, 2010.
