T2 METALS GRANTED $212,000 FROM MANITOBA MINERAL DEVELOPMENT FUND

Vancouver, British Columbia – November 27 2023: T2 Metals Corp. ("T2" or the "Company") (TSX-V: TWO) (OTCQB: AGLAF) (WKN: A2DR6E) is pleased to announce a $212,700 grant from the Manitoba Mineral Development Fund ("MMDF") as announced at the CCMEC Mineral Conference held in Winnipeg, Manitoba. This grant will be used for the ongoing exploration of the Company's Sherridon copper-zinc project in west-central Manitoba.

Sherridon is a well known VHMS camp in the Flin Flon – Snow Lake district, with both a significant mining history and substantial copper-rich historical resources calculated in 2010.

Mark Saxon, CEO of T2 Metals Corp. said "*T2 Metals are a new explorer in Manitoba, and are excited about the prospectivity and opportunity of the Province. We are grateful to the MMDF for their support of our Sherridon copper project, and we look forward to continuing the discovery process in collaboration with all rights holders and stake holders. The MMDF is a great example of how Manitoba is supporting mining, and working closely with the mining industry to ensure the metals essential for the energy transition are available.*"

T2 Metals acknowledges the positive impact the MMDF has on mineral exploration across Manitoba. Mining is an important contributor to economic development and investment within northern communities. The MMDF program and the Manitoba Mineral Exploration Tax Credit ("MMETC") help to ensure the province remains an attractive jurisdiction for mineral exploration including critical raw materials.

T2 Metals is focused on copper, nickel and lithium acquisition, exploration and development within the major mining belts of western North America. The Company continues to target under-explored areas, including the Sherridon, Lida and Cora projects where post-mineralization cover masks areas of high geological prospectivity in the vicinity of major mines.
