

GOLDEN HOPE MINES LTD ("YGH-V;GOLH-0")
- Ongoing Gold Exploration in New Brunswick

Reconnaissance soil geochemistry over the Company's 50% owned, 39 claim Nason Brook and 16 claim McDougall Inlet properties in the Clarence Stream area of southwestern New Brunswick has identified a number of gold and arsenic anomalies. Overburden cover is extensive, and power auger till sampling is planned as followup.

Fancamp Exploration Ltd. is in joint venture with Golden Hope on these properties and holds the balance 50% interest.

The common shares of the Company are listed on the Canadian Venture Exchange (YGH). At present, there are 19,192,329 common shares of the Company issued and outstanding.

The Company has an S.E.C. exemption in the U.S.A. pursuant to Rule 12(g)3-2(b). The file number is 82-4991.
