

DELTA ANNOUNCES WARRANT EXTENSION

December 23, 2024 / Montreal, Quebec / Newsfile Corp. **Delta Resources Limited ("Delta" or "The Company") (TSX-V: DLTA) (OTCBB:DTARF) (Frankfurt: 6G01)** announces that the Company intends to extend the exercise period for 9,585,000 warrants exercisable at \$0.18 per common share and 2,790,068 warrants which are exercisable at \$0.25 per common share (collectively, the "**Warrants**"). The Warrants were issued pursuant to a private placement which was previously announced on December 6, 2022, and closed on December 23, 2022. The Company proposes to extend the expiry dates for these Warrants by 6 months, and accordingly, the new expiry dates for the Warrants will be July 23, 2025.

All other terms and conditions of the Warrants remain unchanged. The Warrant extension is subject to acceptance by the TSX Venture Exchange.

A total of 3,000,000 Warrants are held by parties who are "related parties" of the Company. Therefore, the amendment of Warrants constitutes a "related party transaction" as contemplated by Multilateral Instrument 61-101 Protection of Minority Shareholders in Special Transactions, and TSXV Policy 5.9 - Protection of Minority Shareholders in Special Transactions. However, the exemptions from formal valuation and minority approval requirements provided for by these guidelines can be relied upon as the fair market value of the Warrants does not exceed 25% of the market capitalization of the Company. A material change report in respect of this related party transaction will be filed by the Company.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

About Delta Resources Limited

Delta Resources Limited is a Canadian mineral exploration company focused on growing shareholder value through the exploration of two very high-potential gold and base-metal projects in Canada.

DELTA-1 is Delta's flagship project, where the company is building on a large gold inventory 50 kilometres west of Thunder Bay, Ontario, at surface and adjacent to the Trans-Canada highway. To date, the gold mineralization is defined over a strike length of 2.5 km, from surface to a vertical depth of 300 m. Highlights include drill intercepts such as 5.92 g/t Au over 31 m (incl. 14.8 g/t Au over 11.9 m), and 1.79 g/t Au over 128.5 m. The property covers 306 square kilometres where Delta has identified multiple corridors of intense alteration and deformation, on strike with, and to the south of the Eureka gold zone and that has yet to be thoroughly explored.

The DELTA-2 property covers 205 square kilometres in the prolific Chibougamau District of Quebec. The property holds excellent potential for gold-rich polymetallic VMS deposits as well as hydrothermal-gold deposits. Delta targets VMS deposits such as the LeMoine past producer where 0.76 Mt were mined between 1975 and 1983, grading 9.6% Zn, 4.2% Cu, 4.5 g/t Au and 84 g/t Ag.
