

TITANIUM TO BE ADDED TO S&P/TSX VENTURE SELECT INDEX

CALGARY, ALBERTA – January 12, 2015 – Titanium Corporation Inc. (the “Company” or “Titanium”) (TSX-V: TIC) is pleased to announce that, effective January 19, 2015, the Company will be added to the S&P/TSX Venture Select Index. According to Standard & Poor's, the S&P/TSX Venture Select Index, launched in August of 2011, “seeks to measure the performance of constituents in the S&P/TSX Venture Composite Index that meet specific market capitalization and liquidity criteria.”

About Titanium Corporation Inc.

Titanium Corporation’s “Creating Value from Waste™ CVW™” technology has been developed and demonstrated to efficiently intercept oil sands tailings before they are deposited in tailings ponds, significantly reducing environmental impacts while recovering valuable commodities, minerals, bitumen and solvents. A new minerals industry will diversify Alberta’s economy and expand Canada’s international trade.

The Company’s “before pond” approach to tailings is both economically and environmentally sustainable. Recovered commodities provide attractive economic returns while delivering environmental improvements including: reducing emissions from ponds and tailings; recycling hot water; reducing pond volumes, hazardous materials and accelerating remediation. Reducing bitumen and solvents entering the environment will improve the health and welfare of people and reduce the impact on wildlife and the ecology. The implementation of these new sustainable technologies will bolster Alberta and Canada’s reputation as a responsible developer of natural resources, enhancing opportunities both domestically and internationally to market oil sands products.

Titanium has invested over \$70 million and Governments have contributed an additional \$12 million to the development of this innovative technology which is now ready for implementation for the benefit of Canadians, our customers and shareholders.

The Company’s shares trade on the TSX-V under the symbol “TIC”. For more information please visit the Company’s website at www.titaniumcorporation.com.
