## **RESPONSIBILITY FOR FINANCIAL STATEMENTS**

The accompanying unaudited condensed consolidated interim financial statements (the "Financial Statements") for AurCrest Gold Inc. (the "Company") have been prepared by management in accordance with International Financial Reporting Standards consistently applied ("IFRS"). These financial statements have been prepared on a historical cost basis with the exception of financial instruments classified as fair value through profit and loss. In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information. Accordingly, a precise determination of many assets and liabilities is dependent upon future events. Therefore, estimates and approximations have been made using careful judgment. Recognizing that the Company is responsible for both the integrity and objectivity of the financial statements, management is satisfied that these financial statements have been fairly presented.

## **NOTICE OF NO AUDITOR REVIEW OF REVIEW OF INTERIM FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the unaudited condensed consolidated interim financial statements they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

### **1. Nature of operations, basis of presentation and going concern uncertainty**

AurCrest Gold Inc. (the “Company” or “AurCrest”) is a publicly held company incorporated under the Business Corporations Act (Ontario). The Company is engaged in the investigation, acquisition, exploration and development of exploration and evaluation assets and energy assets in Ontario, Canada as well as building on the Company’s long-standing relations with First Nations in Northwestern Ontario to assist in financing future exploration activities by assessing the potential of forests within the traditional territories of these First Nations to capture and sequester carbon dioxide for the development of Greenhouse Gas offsets and other potential environmental attributes, and to explore the monetization of these offsets and attributes for the benefit of these First Nations and the Company.

The Financial Statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB). The Company has presented the Financial Statements for the three and six month periods ended June 30, 2020 and the comparative figures for the three and six month periods ended June 30, 2019. The Financial Statements have been prepared by management and approved by the Board of Directors on August 26, 2020.

These Financial Statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. AurCrest is at an early stage of development and as is common with many exploration companies, it raises financing for its exploration and acquisition activities. As at June 30, 2020, the Company had no sources of operating cash flows. The Company will therefore require additional funding which, if not raised, would result in the curtailment of activities and project delays. As at June 30, 2020, AurCrest had a working capital deficit of \$769,907 (a working capital deficit of \$891,708 as at December 31, 2019), and has incurred losses since inception resulting in an accumulated operating deficit of \$19,609,497. The Company’s ability to continue as a going concern is uncertain and is dependent upon its ability to continue to raise adequate financing. There can be no assurance that the Company will be successful in this regard, and therefore, there is substantial doubt regarding the Company’s ability to continue as a going concern, and accordingly, the use of accounting principles applicable to a going concern. These Financial Statements do not reflect adjustments that would be necessary if the going concern assumption were not appropriate. If the going concern assumption were not appropriate for these Financial Statements, then adjustments to the carrying values of the assets and liabilities, the expenses and the balance sheet classifications, which could be material, would be necessary.

### **2. Significant accounting policies**

These Financial Statements have been prepared in accordance with IFRS as issued by the IASB applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The Financial Statements do not include all financial risk management information and disclosures as required in the audited annual financial statements. The Financial Statements should be read in conjunction with the audited annual financial statements for the year ended December 31, 2019, which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods of computation remain the same as presented in the audited annual financial statements for the year ended December 31, 2019.

In the opinion of management, all adjustments considered necessary for fair presentation have been included in these Financial Statements. The interim results for the three and six month periods ended June 30, 2020, may not be indicative of the results for the year ending December 31, 2020.

### **3. Short term investments**

As part of the option agreement with Pistol Bay Mining Inc. (“Pistol Bay”) as described below in Note 4 for the Confederation Lake property, the Company on January 1, 2019 owned 500,000 common shares of Pistol

Bay. On March 5 and 12, 2019 the Company received 500,000 common shares of Pistol Bay on each date. On October 1, 2019 the Company received an additional 300,000 shares of Pistol Bay. During the year ended December 31, 2019, the Company sold 524,000 shares of Pistol Bay for gross proceeds of \$23,770. On February 5, 2020, the Company received 2 million shares of Pistol Bay. The Company currently holds 3,276,000 common shares of Pistol Bay with a market value of \$81,900.

On December 30, 2019, the Company received 150,000 common shares of Newrange Gold Corp. ("Newrange") as part of the option agreement with Newrange as described below in Note 4 for the Western Fold property. During the six months ended June 30, 2020, the Company sold 100,000 shares of Newrange for gross proceeds of \$13,530. The Company currently holds 50,000 common shares of Newrange with a market value of \$14,000.

## **Notes to the Condensed Consolidated Interim Financial Statements**

June 30, 2020

(Expressed in Canadian dollars)

---

Note: As disclosed in the Company's significant accounting policies, exploration and project evaluation expenditures have been reflected in the statement of loss and comprehensive loss.

### **Richardson Lake area**

The Richardson Lake area is a gold exploration prospect located in the Birch-Uchi belt of the Red Lake mining division, and originally consisted of six claims optioned 100% from prospector Perry English. The total area of the Richardson Lake area mineral claims for the property groupings described below is approximately 5,345 hectares. The original six claims plus an area of influence around those claims is subject to the Company's obligation to pay a NSR royalty of 2%; all other claim units are held 100% by the Company with no underlying NSR royalty obligations to third parties.

At the beginning of 2020, the Company defined the overall Richardson Lake area mineral claims as the Richardson Lake Gold Property and the Western Fold Gold Property. Following conversion to online staking, the Richardson Lake Gold Property mining claims covered 123 mining cells, with an area of approximately 2,170 hectares. The Western Fold Gold Property mining claims cover 110 cells, with an area of approximately 2,170 hectares.

On December 30, 2019, the Company entered into an option agreement with Newrange for the Company's Western Fold property. Newrange has the option to acquire a 100% interest in the Western Fold property by paying AurCrest 1,000,000 Newrange common shares and \$200,000, with 150,000 shares and \$30,000 due on closing (received), 350,000 shares and \$70,000 on the first anniversary date and an additional 500,000 shares and \$100,000 due on the second anniversary date.

Upon Newrange formally exercising its option AurCrest will receive a 2% NSR on the Western Fold property with Newrange having the right to purchase 1% of the 2% NSR by paying to the Company \$1 million at any time. There is also a potential 1% NSR payable to the Company arising out of claims acquired by Newrange within a 2 km area of interest around the Western Fold property.

The Company acquired a 5-cell mineral claim block contiguous to the Richardson Lake property from the prospector Perry English on January 25, 2020 with an area of approximately 56 hectares, with no underlying NSR royalty to the vendor. On August 11, 2020, the Company acquired a further 50 claim cell units representing approximately 1,010 hectares, named the Richardson North Extension Gold Property, adjacent and contiguous to its Richardson Lake Gold Property.

### **Ranger Lake**

The Ranger Lake Gold Property is a gold exploration prospect consisting of 50 unpatented mineral cell claims totaling approximately 1,010 hectares located in the Red Lake gold camp acquired by the Company in October 2018. On July 29, 2020 the Company acquired a further 50 claim cell units representing a 2.3 km by 4.4 km block encompassing approximately 1,010 hectares and named the Ranger East Gold Property, adjacent the Ranger Lake Gold Property. The Ranger Lake property lies approximately 10 kilometres due east of the Red Lake and Campbell Gold Mines in the world-famous Red Lake mining district. The acquisition of these claims brings AurCrest's holdings in the area to a total of 100 claim cell units encompassing approximately 2,020 hectares.

### **Confederation Lake**

On October 28, 2016, the Company executed an option agreement with Pistol Bay for all the Company's mining claims (the "Claims") in the Confederation Lake greenstone belt southeast of Red Lake, Ontario. Pistol Bay has the option to acquire a 100% interest in the Claims by paying AurCrest an aggregate of \$250,000 and issuing an aggregate of 5 million common shares over four years with an initial payment of \$25,000 (received) and the issuance of 1 million common shares on closing (received), the payment of a further \$25,000 within 90 days following closing (received) and the payment of \$50,000 and the issuance of 500,000 common shares (after a 2:1 consolidation of Pistol Bay) on each of the four anniversaries following closing (received for January 2018). During the year ended December 31, 2019, the Company received

500,000 common shares and in lieu of the \$50,000 cash payment, received \$10,000 in cash and an additional 500,000 common shares of Pistol Bay with a further payment of \$15,000 in cash or shares of Pistol Bay by August 1, 2019. The final \$15,000 cash payment was settled through the issuance of 300,000 common shares of Pistol Bay (received on October 3, 2019) and the payment of \$7,500 in cash (received on October 21, 2019). Each of the Claims is subject to a 2% NSR royalty in favour of third parties. On January 21, 2020, the Pistol Bay completed its option to acquire a 100% interest in the Company's Confederation Lake properties by paying AurCrest \$50,000 in cash and issuing 2 million common shares of Pistol Bay.

### McFaulds Lake

The Company currently holds a 100% interest in a group of properties (450 hectares) within the area known as 'The Ring of Fire' located in the Lower James Bay region of Ontario, in the proximity of McFaulds Lake.

### Bridget Lake

The Company holds a 35% interest in a group of properties (144 hectares) at Bridget Lake in Ball Township, Red Lake Mining Division. The 65% balance of interest in the Bridget Lake property is currently held by Evolution Mining Gold Operations Ltd.

## 5. Short-term loans

On September 22, 2017, the Company completed a convertible loan financing of \$50,000 (the "September Loan"). The September Loan was repayable on September 22, 2018, with interest payable 10% per annum. During the six months ended June 30, 2020, \$25,000 plus accrued interest to December 31, 2019 was paid. The loan is currently in default but the lender has not pursued any of its remedies under the loan agreement.

On January 31, 2017, the Company's subsidiary, Wiigwaasaatig Energy Inc. ("WEI"), a private federal corporation, completed a convertible loan financing of \$31,500 (the "January Loan"). The January Loan was repayable on January 31, 2018, with interest payable at 10% per annum. As part of the loan agreement 300,000 common shares of WEI were transferred by the Company to the lender, representing 3% of the common share equity of WEI. During the six months ended June 30, 2020 this loan plus accrued interest was paid.

### 10. Capital management

The mineral properties of the Company are in the exploration and development stage and, as a result, the Company currently has no source of operating cash flow. The Company intends to raise such funds as and when required to complete its projects. There is no assurance that the Company will be able to raise additional funds on reasonable terms. The only sources of future funds presently available to the Company are through the issuance of share and debt instruments. The ability of the Company to arrange such

---

financing in the future will depend in part upon the prevailing capital market conditions as well as the business performance of the Company. There can be no assurance that the Company will be successful in its efforts to arrange additional financing, if needed.

The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than of the TSX Venture Exchange ("TSXV") which requires adequate working capital or financial resources of the greater of (i) \$50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of June 30, 2020, the Company may not be compliant with the policies of the TSXV. The impact of this violation is not known and is ultimately dependent on the discretion of the TSXV.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the years.

### **11. Financial instrument risk management**

#### **a) Fair value of financial instruments**

The carrying value of cash, trade and other payables and due to related party approximates fair value due to the short-term nature of these financial instruments.

As of June 30, 2020, except for cash and short-term investments, none of the Company's financial instruments are recorded at fair value in the statements of financial position. Cash and short-term investments are classified as level 1 fair value.

#### **b) Risk management**

##### **Credit risk**

Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The Company is exposed to credit risk with respect to its cash. To minimize this risk, cash has been placed with major Canadian financial institutions.

##### **Liquidity risk**

Liquidity risk is the risk that the Company cannot meet a demand for cash or fund its obligations as they come due. The Company ensures that there is sufficient capital in order to meet annual business requirements, after taking into account administrative, property holding and exploration budgets, against cash and short-term investments. As at June 30, 2020, the Company has \$153,184 in cash and current liabilities of \$923,091. As the Company does not have operating cash flow, the Company has and will continue to rely primarily on equity financing to meet its capital requirements.

##### **Market risk**

Market risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will significantly fluctuate because of changes in market prices. The Company is exposed to market risk in trading its short-term investments and unfavourable market conditions could result in dispositions of investments at less than favourable prices. In addition, most of the Company's investments are in the resource sector.

##### **Title and rights**

The Company has investigated title to all of its exploration properties and, to the best of its knowledge, title to all of its properties, and properties that it has the right to acquire or earn an interest in are in good standing; however, the Company's properties may be subject to prior unregistered agreements or transfers and title may be affected by undetected defects. These defects could adversely affect the

Company's title to such properties or delay or increase the cost of the development of such properties.

The Company's properties may also be subject to Indigenous/First Nations or other historical rights that may be claimed on Crown properties or other types of tenure with respect to which mineral rights have been conferred. The Company is not aware of any Indigenous/ land claims having been asserted or any legal actions relating to issues having been instituted with respect to any of the exploration & evaluation assets in which the Company has an interest. The Company is in ongoing communication with the Indigenous/First Nations communities associated with its properties and is aware of the mutual benefits afforded by co-operative relationships with indigenous people in conducting exploration activity and is supportive of measures established to achieve such co-operation.

### **COVID-19**

Since March 2020, several governmental measures have been implemented in Canada and the rest of the world in response to the coronavirus (COVID-19) pandemic. While the impact of COVID-19 and these measures are expected to be temporary, the current circumstances are dynamic and the impacts of COVID-19 on the Company's business operations cannot be reasonably estimated at this time. The Company anticipates this could have an adverse impact on its business, results of operations, financial position and cash flows in 2020. The Company continues to operate its business, and in response to Federal and Provincial emergency measures, has requested that its employees and consultants work remotely wherever possible. These government measures, which could include government mandated closures of the Company or its contractors, along with restrictions on access which may be imposed by Aboriginal/First Nations communities associated with the Company's properties in response to COVID-19, could impact the Company's ability to access its exploration properties and conduct its exploration programs and business in a timely manner. The Company is evaluating the best way to move its exploration and other business activities forward during this pandemic and when the emergency measures are lifted.

## **12. Subsequent events**

On July 29, 2020, The Company granted 8,000,000 stock options at an exercise price of \$0.05 exercisable for a period of 5 years.

On July 13, 2020, 1,000,000 warrants and 80,000 compensation units and 80,000 compensation warrants expired unexercised.
